House Appropriations Committee
1016 Longworth
Washington, DC 20515

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY09 Interior and Environment Appropriations bill, EPA science and technology account for American Water Works Research Foundation. The entity to receive funding for this project is American Water Works Research Foundation at 6666 W. Quincy Avenue, Denver, Colorado 80235-3098 USA. It is my understanding that the funding would be used to continue research into cost-effective technologies for water quality that will benefit consumers, as the primary purpose of the research is to enable water utilities to practically address and manage challenges to water supply and to be directly involved in the deployment of new technologies. *I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.*

Consistent with the Republican Conference's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Thank you for your consideration of this important project, and please feel free to contact me if you have any questions.

Sincerely,

DEAN HELLER

Pursuant to Rule XXIII of the House of Representatives for the 110th Congress, I am submitting a disclosure form for a project affecting my Congressional District.

I am requesting funding for the City of Snohomish, Washington Wastewater Treatment for fiscal year 2009. The entity to receive funding for this project is the City of Snohomish, which is located at 116 Union Avenue, Snohomish, WA 98290.

Dear Chairman Obey and Ranking Member Lewis,

I am requesting funding in the FY09 Interior Appropriations bill for the City of Galt Wastewater Treatment Plant (WWTP) Upgrade. The entity to receive funding for this project is City of Galt at 495 Industrial Drive Galt, CA 95632. It is my understanding that the funding would be used to upgrade treatment levels (no expansion of capacity) for five constituents and to meet new limits for an additional 14 constituents to comply with the National Pollutant Discharge Elimination System (NPDES) permit for the WWTP. The existing WWTP was not designed to meet most of the new standards, and therefore must be upgraded. The City must comply with the new requirements in the NPDES permit by May 2010 or face significant monthly fines. *I certify that this project does not have a direct and foreseeable effect on the pecuniary interests of me or my spouse.*

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress [OR: was named after Representative John Doe in 1983]; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I

further certify that should this request be included in the bill, I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.

Dear Chairman Obey and Ranking Member Lewis:

I am requesting funding in the Fiscal Year 2009 Interior and Environment Appropriations bill, Clean Water State Revolving Fund account, for Omaha, Nebraska. The entity to receive funding for this project is the Public Works Department of the City of Omaha, Nebraska, located at 1819 Farnam Street, Suite 600, Omaha, NE 68183.

The City of Omaha requests \$6 million to be used for the design and construction of its Combined Sewer Separation Projects. These projects will separate storm and sanitary sewers that are over 100 years old and serve approximately one-third of the City's residents. These projects also will allow the City of Omaha to work toward meeting some of the requirements of the Clean Water Act and Omaha's Combined Sewer Overflow (CSO) Permit, and will eliminate the backup of sewage into the basements of the citizens of Omaha. Separation work has been scheduled for the eastern portion of Omaha, which serves approximately 130,000 people and is typically populated by residents with low-to-moderate incomes. The problems associated with combined sewers have contributed to the lack of revitalization in this part of Omaha. Total separation of the system is estimated to cost \$4 billion.

I certify that neither I nor my spouse has any direct financial interest in this project.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program named or will be named after a sitting member of Congress; (2) is not intended for a "front" or "pass through" entity; and (3) meets or exceeds all statutory requirements for matching funds where applicable. I further certify that should this request be included in the bill, and I will place a statement in the *Congressional Record* describing how the funds will be spent and justifying the use of federal taxpayer funds.
