

**The Ukraine Supplemental Appropriations Act provides \$13.6 billion in emergency funding to support the Ukrainian people and defend global democracy in the wake of Russia’s unprovoked attack on Ukraine.**

## **HUMANITARIAN ASSISTANCE**

- Addresses the dire humanitarian needs of the hundreds of thousands of refugees who have fled Ukraine or displaced within Ukraine with more than \$4 billion
  - \$2.65 billion through the U.S. Agency for International Development (USAID)’s International Disaster Assistance program to provide emergency food assistance, health care, and other urgent support
  - \$1.4 billion for Migration and Refugee Assistance to support refugees fleeing Ukraine

## **DEFENSE ASSISTANCE**

- Provides strong support to Ukraine and American allies and partners in the Baltics and Central and Eastern Europe so they can defend themselves against Russian aggression
  - More than \$3 billion for European Command operations mission support, the deployment of personnel to the region, and intelligence support
  - Builds capacity to deter Russian aggression in Ukraine and its neighbors, including NATO Eastern Flank countries, with \$650 million in funding towards the Foreign Military Financing Program (FMF)
  - Increases the President’s authority to transfer defense equipment to Ukraine and other allies to \$3 billion

## **ECONOMIC ASSISTANCE**

- Includes nearly \$1.8 billion to flexibly respond to macroeconomic needs in Ukraine and its neighbors, including energy and cybersecurity efforts
- Provides \$25 million to the U.S. Agency for Global Media to combat disinformation and \$120 million for USAID Transition Initiatives to support local actors, such as activists and independent media, through flexible short-term assistance in Ukraine and promote accountability for Russian human rights violations

## **SANCTIONS ENFORCEMENT**

- Enforces the tough sanctions that have been imposed on Russia with funding for the Departments of Commerce, Justice and the Treasury to develop and enforce sanctions and prepare for and respond to cyber threats
