

Combating Climate Change & Boosting Resiliency

IN THE FISCAL YEAR 2020 APPROPRIATIONS AGREEMENT

House Appropriations

Energy & Water Development

- **Department of Energy's Office of Science — \$7 billion**, an increase of \$415 million above the FY19 level and \$1.5 billion above the President's budget request
 - The Office of Science funds basic science research in physics, biology, chemistry, and other science disciplines to expand scientific understanding and secure the nation's global leadership in energy innovation
- **Department of Energy's Energy Efficiency and Renewable Energy (EERE) — \$2.79 billion**, an increase of \$411 million above the FY19 level & \$2.5 billion above the President's budget request
 - This funding provides for clean, affordable, and secure energy and ensures American leadership in the transition to a global clean energy economy
- **Department of Energy's Nuclear Energy — \$1.49 billion**, an increase of \$167 million above the FY19 level and \$669 million above the President's budget request
 - This funding invests in activities to further improve the safety and economic viability of our current reactor fleet, develop the next generation of clean and safe reactors, and establishes an advanced reactors demonstration program
- **Department of Fossil Energy Research and Development — \$750 million**, \$188 million above the President's budget request
 - This funding provides for research, development, and demonstration activities to ensure the safe, efficient, and environmentally sound use of fossil energy resources
- **Department of Energy's Advanced Research Projects Agency – Energy — \$425 million**, an increase of \$59 million above the FY19 level
 - This funding supports research aimed at rapidly developing energy technologies that are capable of significantly changing the energy sector to address our critical economic, environmental, and energy security challenges.
- **Department of Energy's Office of Electricity — \$190 million**, an increase of \$34 million above the FY19 level and \$7.5 million above the President's budget request
 - This funding will advance technologies to increase the resiliency and efficiency of the nation's electricity delivery system with capabilities to incorporate growing amounts of clean energy technologies

Interior-Environment

- **Environmental Protection Agency — \$9.06 billion**, an increase of \$208 million above the FY19 level and \$2.83 billion above the President's budget request
 - \$3.38 billion for EPA's core science and environmental program work, an increase of \$75 million above the FY19 level and \$767 million above the President's budget request

Commerce-Justice-Science

- **National Aeronautics and Space Administration Earth Science — \$1.97 billion**, an increase of \$40 million above the FY19 level and \$192 million above the President's budget request
- **National Oceanic and Atmospheric Administration Climate Research — \$169.5 million**, an increase of \$10.5 million above the FY19 level and \$82 million above the President's budget request
- **National Oceanic and Atmospheric Administration's National Oceans and Coastal Security Fund — \$33 million**, an increase of \$3 million above the FY19 level

Transportation-Housing and Urban Development

- **Requires all HUD grantees to develop a resiliency plan as part of the consolidated planning process**
- **Funding for Transit Infrastructure Grants includes \$75 million for low- and no-emission buses**
