## OVERVIEW

The Committee recommendation for the fiscal year 2013 budget for activities under the jurisdiction of the Subcommittee on State, Foreign Operations, and Related Programs is \$40,132,000,000 in new discretionary budget authority, which is \$2,008,000,000, or five percent, below the fiscal year 2012 enacted level and \$6,337,257,000, or fourteen percent, below the fiscal year 2013 request. In addition, the recommendation includes \$8,244,517,000 in title VIII to support Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT), pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, which is \$2,958,270,000 below the fiscal year 2012 enacted level and the same as the fiscal year 2013 request. The Committee notes that the total amount provided in this bill, including funds designated as OCO/GWOT, decreases by nine percent from the fiscal year 2012 enacted level.

The Committee recognizes that the economic prosperity and national security of the United States is paramount, and the programs prioritized by the Committee reflect this reality. The Committee recommendation yields savings by cutting lower-priority funding, and enhances oversight and transparency measures put in place in the fiscal year 2012 Act. The Committee recommendation, as detailed in the bill and accompanying report, supports the following: (1) national security programs; (2) humanitarian programs; (3) programs that promote democratic principles; and (4) oversight and management reforms.

## NATIONAL SECURITY PROGRAMS

The Committee remains focused on supporting programs that are critical to the national security of the United States. This commitment is clearly demonstrated by the unwavering support for Israel, reflected by full funding for the United States-Israel Memorandum of Understanding. The Committee recommendation also includes continued support for other critical allies, such as Jordan, and makes additional assistance available to help Jordan address needs that have arisen as a result of unrest in neighboring countries.

Additionally, to address the immediate security needs in this hemisphere, the Committee recommendation restores reductions proposed in the request for key countries in Latin America. The Committee believes it is critical to continue robust support for counternarcotics and law enforcement efforts, as well as assistance for rule of law and judicial reform activities in Mexico, Colombia, Central America, and the Caribbean to fight drug trafficking and violent crime before it reaches the borders of the United States. The security and stability of these neighbors directly affects the United States.

The Committee understands the importance of United States assistance to secure and stabilize the front-line states of Afghanistan, Pakistan, and Iraq. The Committee notes that in spite of a lower funding allocation, these countries remain a priority, and the Committee provides the necessary funding to meet the critical objectives that are closely connected to military efforts. The Committee is committed to applying the lessons learned from the transition in Iraq to the upcoming transition in Afghanistan and includes a new

certification requirement to ensure that funds are spent wisely, necessary agreements with the host government are in place, and security concerns are addressed.

#### HUMANITARIAN PROGRAMS

The Committee notes that foreign assistance is an essential means for advancing foreign policy and national security objectives and that such assistance also reflects the values, generosity, and goodwill of the people of the United States. The Committee believes that even during these very difficult economic times at home, the most vulnerable populations around the world, those who are affected by disease, hunger, and displacement due to conflict and natural disasters, cannot be overlooked. The Committee notes that these conditions can threaten and destabilize countries and governments, and could undermine our national security.

For this reason, the Committee restores some of the cuts proposed in the request to Global Health Programs and maintains the fiscal year 2012 enacted levels for Development Assistance and the Millennium Challenge Corporation. Because the Committee has moved away from providing supplemental appropriations, the recommendation provides refugee and disaster assistance at a level commensurate with the five-year average appropriation.

#### PROGRAMS THAT SUPPORT DEMOCRATIC PRINCIPLES

The Committee notes that during this time of unprecedented political change in many countries around the world, American leadership is critical and support for democracy promotion is of the utmost importance. For this reason, the bill designates not less than the requested level for the promotion of democracy and provides the fiscal year 2012 operating level for public diplomacy efforts of the Department of State and the Broadcasting Board of Governors, including Voice of America.

The Committee is concerned about the harassment and persecution faced by civil society around the world, and includes a prohibition on funds going directly to any foreign government that interferes with such operations. The Committee further expects the Department of State and the United States Agency for International Development (USAID) to support the role of civil society in democracy and governance strategies in order to hold governments accountable, spur democratic change including through free and fair elections, and improve the effectiveness of government institutions. The Committee includes new language prohibiting funds from being provided directly to any foreign government unless that government is sincerely committed to democratic principles and reform.

The Committee includes a new requirement that the Secretary of State submit a report on how United States assistance for democracy promotion complies with the provision in the bill prohibiting prior approval by foreign governments for democracy, human rights, and governance assistance. The Committee further directs the Administrator of USAID, in consultation with relevant United States Government agencies, to submit a report to the Committees on Appropriations, not later than 180 days after enactment of this Act, clarifying the roles and responsibilities of contractors and

grantees in the promotion of democracy abroad, particularly in the area of political development.

#### OVERSIGHT AND MANAGEMENT REFORMS

The Committee takes seriously its responsibility to conduct proper oversight, and during calendar year 2012, the Subcommittee on State, Foreign Operations, and Related Programs held nine hearings and member briefings to further examine the proposals included in the budget request in order to remove redundant or inefficient programs, address vulnerabilities for fraud and corruption, and improve transparency of assistance programs. In addition to receiving testimony and responses from Administration officials, the Committee also received written testimony from the public. Additionally, the Surveys and Investigations (S&I) staff of the Committee began three reviews, and S&I continues to provide updates on studies previously conducted.

Proper management of taxpayer dollars must be a paramount focus of all Government agencies, and this is particularly important for the Department of State, USAID, and other agencies charged with advancing the interests of the United States around the world. Waste, fraud, and abuse in the programs funded in this bill will not be tolerated. Reflecting its commitment to oversight and management reforms, the Committee has maintained and strengthened provisions contained in the fiscal year 2012 bill on multi-year commitments, direct Government-to-Government assistance, the United Nations, and contributions to international financial institutions.

The Committee terminates ten accounts and rescinds old and lower-priority funds for a savings of \$159,700,000. The bill again includes a separate OCO/GWOT title to fund critical programs such as security assistance for Iraq and the special inspector general for reconstruction in Afghanistan. This bill maintains the pledge to ensure that these temporary and extraordinary costs are on a glide path downward by reducing OCO/GWOT appropriations by twenty-six percent below fiscal year 2012 enacted level.

#### TITLE I—DEPARTMENT OF STATE AND RELATED AGENCY

##### DEPARTMENT OF STATE

##### ADMINISTRATION OF FOREIGN AFFAIRS

The Committee recommendation for Administration of Foreign Affairs provides funds for the broad range of activities necessary to support the operations and activities of more than 260 posts in over 180 countries. The Committee recommends a total of \$8,733,797,000 for the Department of State's Administration of Foreign Affairs activities, which is \$283,689,000 below the fiscal year 2012 enacted level and \$1,013,979,000 below the request. Of the total amount provided, \$8,574,897,000 is derived from general-purpose discretionary funds and \$158,900,000 is mandatory spending.

DIPLOMATIC AND CONSULAR PROGRAMS  
(INCLUDING TRANSFER OF FUNDS)

Fiscal year 2012 enacted level <sup>1</sup> .....	\$6,550,947,000
Fiscal year 2013 request .....	7,068,619,000
Committee recommendation .....	6,276,051,000
Change from request .....	- 792,568,000
Change from enacted level .....	- 274,896,000

<sup>1</sup>In addition, the fiscal year 2012 enacted level, the fiscal year 2013 request, and the Committee recommendation include funds under this heading in title VIII designated Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The Committee recommendation includes \$6,276,051,000 for Diplomatic and Consular Programs, including up to \$1,279,267,000 for Worldwide Security Protection (WSP). Additional funds are provided under title VIII for OCO/GWOT.

The Committee recommendation is \$274,896,000 below the fiscal year 2012 enacted level and \$792,568,000 below the request. Within this total, the recommendation includes up to \$1,279,267,000 for Worldwide Security Protection, which is \$75,733,000 below the fiscal year 2012 enacted level and \$149,201,000 below the request and is available until expended.

The Committee recommendation includes not less than \$469,386,000 for public diplomacy. The Committee continues to strongly support public diplomacy at the Department of State and expects the Secretary to include projected funding for public diplomacy in the operating plan for fiscal year 2013 required by section 7076 of the bill including projected spending in both Human Resources and Overseas Programs categories.

The Committee recommendation does not include the funds requested for hiring new staff above attrition in fiscal year 2013.

The Committee recommendation also does not include the requested extension of authority for Foreign Service overseas comparability pay adjustments. The authority to grant overseas comparability pay is a matter within the jurisdiction of the authorization committee and should be considered in the context of legislation addressing the authorities and compensation rules governing the Foreign Service.

Funds made available under this heading are allocated in the following manner:

*Human resources.*—The Committee recommendation includes \$2,318,106,000 for human resources, of which \$216,963,000 is for Worldwide Security Protection. Funds in this category support American salaries at overseas and domestic United States diplomatic missions.

*Overseas programs.*—The Committee recommendation includes \$1,898,176,000 for overseas programs, which supports the operational programs of regional bureaus of the Department of State. Funds support the operations of United States embassies, consulates, and other diplomatic posts worldwide.

*Diplomatic policy and support.*—The Committee recommendation includes \$861,188,000 for the operational programs and management offices of the functional bureaus of the Department of State.

*Security programs.*—The Committee recommendation includes \$1,198,581,000 for security programs, of which \$1,062,304,000 is for Worldwide Security Protection. Funds support the personnel, equipment and training necessary for the protection of diplomatic

personnel, overseas diplomatic missions, residences, and domestic facilities and information.

*Fees and Transfers*

The Committee recommendation also includes language carried in prior years and requested for fiscal year 2013, which: (1) permits not to exceed \$10,000,000 to be transferred to Emergencies in the Diplomatic and Consular Service for emergency evacuations and terrorism rewards; (2) provides \$1,806,600 in fees collected from other Executive Branch agencies and \$520,150 from reserves for use of facilities at the International Center Complex, as authorized by law and for development, maintenance, and security of additional properties for the use as an International Center by foreign governments or international organizations; (3) provides not to exceed \$15,000 from reimbursements, surcharges, and fees for use of Blair House facilities in accordance with the State Department Basic Authorities Act of 1956; and (4) makes not to exceed \$5,000,000 in fee collections available until expended for various activities.

*International Center, Washington, D.C.*—The Committee recommendation does not include a separate appropriation account for the International Center, as proposed in the fiscal year 2013 budget request. Instead, the recommendation continues prior year language under this heading related to the collection of fees from other executive agencies and funds derived from the reserve authorized by section 5 of the International Center Act. The Committee recommendation does not include the funds requested for the development of the former Walter Reed Army Medical Center property at this time. The Committee understands that the Department of State has commissioned a study of the Walter Reed property that will not be completed until later this year. The Committee urges the Department of State to work with the committees of jurisdiction to amend the International Center Act to authorize any proposed expansion.

*Border Security Program*

In addition to the funds appropriated under this heading, an estimated \$1,976,337,000 will become available through authorized fees and surcharges for the Department's Border Security program, of which \$1,366,956,000 is from the collection of Machine Readable Visa (MRV) fees, \$48,961,000 is from the collection of Fraud Prevention fees, and \$560,420,000 is from collection of Enhanced Border Security Program fees. The Committee recommendation does not include the requested extension of the Western Hemisphere Travel Initiative (WHTI) surcharge authority. The Committee understands that the extension of this authority is under consideration by the authorization committee of jurisdiction. If enacted, the WHTI surcharge will make available an additional \$301,560,000 for the Border Security program. This would bring the total amount for the program to \$2,277,897,000, an increase of \$36,914,000 above the projected fiscal year 2012 level, to address workload increases in the passport and visa program and the proposed security enhancements.

*Visa processing.*—The Committee supports the proposed expansion of visa processing capacity at high-volume posts, such as

Brazil and the People's Republic of China. The Committee notes that section 7076 of division I of Public Law 112-74 included language permitting the Secretary of State to develop and conduct a pilot program for the processing of B-1 and B-2 visas using secure remote videoconferencing technology as a method for conducting visa interviews of applicants. The Committee directs the Secretary of State to submit a report to the Committees on Appropriations, not later than 60 days after enactment of this Act, on the status of a pilot program, the design, and projected completion date. In the event a determination has been made not to conduct a videoconferencing pilot program, the report should provide the reasons for such determination.

#### *Worldwide Security Protection*

The Committee recommendation includes \$1,279,267,000 for Worldwide Security Protection (WSP) within the funds appropriated under this heading in this title, which is \$75,733,000 below the fiscal year 2012 enacted level and \$149,201,000 below the request. Additional funds are provided under title VIII for the WSP costs in Afghanistan and Pakistan.

The WSP program provides the core funding for the protection of life, property, and information of the Department of State. WSP funding supports a worldwide guard force protecting overseas diplomatic missions, residences, and domestic facilities. More than 1,700 diplomatic security personnel are deployed worldwide to protect United States Government staff and facilities. In addition, the WSP program appropriation supports the protection of national security information and the integrity of the Department of State's network of information systems.

#### *Other Matters*

*Afghanistan, Pakistan, and Iraq operations.*—The Committee recommendation includes a total of \$2,774,968,000 under this heading in titles I and VIII of this Act for diplomatic and security operations in the front-line states of Afghanistan, Pakistan, and Iraq. The recommendation takes into account the revised requirements for operations in Iraq that resulted from the Department of State's initial review of the program in early 2012. The Committee understands that the Department of State is continuing to review the diplomatic and operational presence in the frontline states of Afghanistan, Pakistan and Iraq. The Committee expects these reviews to yield a smaller, more streamlined, operational footprint than was originally planned in the fiscal year 2013 budget.

The Committee does not support the requested increase in staffing in the frontline states, other than the increases necessary to provide security for diplomatic and development personnel.

*Ambassador's Fund for Cultural Preservation.*—The Committee recommendation does not include funding for the Ambassador's Fund for Cultural Preservation. Furthermore, section 7077 rescinds \$5,700,000 from unobligated funds appropriated under this heading in division I of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2012 (Public Law 112-74). Given the extremely difficult economic realities facing our country, the Committee does not believe that dedicating funds to these activities is justified.

*American Institute in Taiwan.*—The Committee recommendation includes authority for the Secretary of State to transfer up to \$15,300,000 of the funds appropriated under this heading to funds appropriated under the heading Payment to the American Institute in Taiwan. The transfer of these funds will be needed to offset the loss of non-immigrant visa fee revenue in the event that Taiwan qualifies as a Visa Waiver Program country in fiscal year 2013.

*Bureau of Democracy, Human Rights and Labor (DRL).*—The Committee recommendation includes the requested level for fiscal year 2013 for DRL.

The Committee encourages DRL to continue its efforts to combat human trafficking and exploitative labor practices overseas.

*Bureau of Energy Resources.*—The Committee recommendation does not include the \$5,400,000 and 22 new positions proposed in the fiscal year 2013 budget request for the Bureau of Energy Resources.

*Conflict Stabilization Operations (CSO).*—The Committee recommendation continues the authority provided in fiscal year 2012 for the Secretary of State to transfer up to \$35,000,000 of the funds appropriated under this heading to CSO. Additional funds are provided under title VIII.

*Export Control.*—The Committee expects the Secretary of State to consult with the Committees on Appropriations on the Export Control Reform initiative.

*Increasing diversity of the Foreign Service.*—The Committee supports ongoing partnerships between the Department of State and community colleges and universities that focus on recruiting and preparing students from institutions with large minority populations for positions in the United States Foreign Service. The Committee directs that funding for these partnerships be done on a competitive basis and that the operating plan required by section 7076 of the bill include amounts planned to support the partnerships in fiscal year 2013.

*Mass atrocities prevention.*—The Committee notes the Department of State's efforts to train relevant personnel in genocide and mass atrocities prevention and directs the Department of State to consult with the Committees on Appropriations on progress in implementing this training.

*Mexico.*—The Committee recognizes a need for greater economic engagement between the United States and Mexico and urges the Department of State to explore new opportunities in this area, including engagement with private sector Chief Executive Officers and business leaders in both countries, in order to enhance dialogue and cooperative efforts to improve economic growth, increase global market competitiveness, improve United States-Mexico trade and investment, create jobs, and raise living standards for citizens of both countries, within a framework that fully respects and supports national sovereignty and interests.

*Office to Monitor and Combat Trafficking in Persons (TIP).*—The Committee recommendation includes not less than the requested amount for TIP and urges the Secretary of State to post the National Human Trafficking Resource Center hotline and website information in all appropriate United States diplomatic and consular facilities where visas are processed.

*Opportunities for Domestic Manufacturers.*—The Committee directs the Department of State, in consultation with the Administrator of the USAID, to provide a report to the Committees on Appropriations on manufactured products purchased by each agency, or which are purchased on the agency's behalf, on a regular basis and are not currently manufactured in the United States. An interim report is required no later than 180 days after the date of enactment of this Act, with a final report due no later than 365 days after the date of enactment of this Act. The final report shall also be shared with the President's Manufacturing Council and the Administrator of the Manufacturing Extension Partnership.

*Victims of terrorism compensation.*—The Committee notes that the Department of State, Foreign Operations and Related Programs Appropriations Act, 2008 (division J of Public Law 110–161) included \$4,000,000 under this heading for compensation of the families of Foreign Service members killed in terrorist bombings of the United States embassies in Nairobi, Kenya, and Dar Es Salaam, Tanzania, on August 7, 1998. The language of the 2008 Act also withheld the funds from obligation until enactment of subsequent authorizing legislation establishing the eligibility criteria and payment amounts. Despite several bills passing the House of Representatives authorizing such payments, no bill has been enacted into law and the \$4,000,000 remains unobligated. The Committee again urges the Secretary of State to forward to Congress a legislative proposal providing for appropriate compensation to Department of State employees killed in terrorist attacks since 1998 and recommends expeditious consideration of such legislation by the committees of jurisdiction. The Committee directs that, if authorized during fiscal year 2013, up to \$11,200,000 of the funds appropriated under this heading in this Act and prior acts should be made available for such compensation.

*Western Hemisphere Affairs.*—The Committee is aware of steps taken by the Bureau of Western Hemisphere Affairs to promote stable democracies throughout the region through racial and ethnic equality initiatives, including coordinating and implementing the joint action plans developed with the governments of Colombia and Brazil. The Committee recommendation includes funds to support these initiatives during fiscal year 2013, including the continued implementation of the Brazil and Colombia joint action plans on racial equality.

The Committee understands that the Department of State is working to expand educational linkages and partnerships with governments in the Western Hemisphere region, with the goal of increasing higher education exchanges between the United States and Latin America and the Caribbean. The Committee urges the Secretary of State to work to provide opportunities to students of disadvantaged backgrounds or historically underserved populations to participate in the exchange expansion initiative. The Committee also encourages the Department of State to secure both private and public sector partners to support the participation of economically disadvantaged students.

*Western Sahara.*—The Committee is concerned about the growing acts of violence and terrorism in the Sahel region in North Africa and the rising influence of Al Qaeda across North Africa. Additionally, Al Qaeda's growing ties with members of the Polisario,

residents of the Tindouf camps, and other militants in the region highlight the importance of redoubling diplomatic efforts to resolve the longstanding dispute over the Western Sahara, which can lessen the political unrest and economic crises that resulted from the conflict and the resolution of the protracted refugee situation in Algeria. The Committee recommends the Secretary of State treat as a more urgent priority a negotiated settlement to the dispute, based on autonomy under Moroccan sovereignty and work with the parties of the conflict, the United Nations High Commissioner for Refugees (UNHCR), and other relevant international partners to reach a durable solution, including a census, refugee resettlement, and/or voluntary repatriation.

#### CAPITAL INVESTMENT FUND

The Committee recommendation includes \$59,380,000 for Capital Investment Fund, which is the same as the fiscal year 2012 enacted level and \$23,920,000 below the request. These funds are in addition to an estimated \$156,000,000 in expedited passport fees, which will be used to support the information technology modernization effort, for a total of \$215,380,000 in fiscal year 2013 for support of the Department of State's Information Technology Strategic Plan of the Department of State.

#### OFFICE OF INSPECTOR GENERAL

Committee recommendation .....	60,154,000
Change from request .....	-5,468,000
Change from enacted level .....	-1,750,000

<sup>1</sup>In addition, the fiscal year 2012 enacted level, the fiscal year 2013 request, and the Committee recommendation include funds under this heading in title VIII designated OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The Committee recommendation includes \$60,154,000 under this heading for support of the oversight personnel and activities of the Office of Inspector General (OIG) at the Department of State. Additional funds are provided under title VIII for OCO/GWOT.

The Committee recommendation deletes language carried in prior years waiving the statutory requirement that all posts be inspected every five years. The Committee understands that this statutory language is under consideration by the authorizing committee of jurisdiction.

The funds appropriated will support the audits, investigations, and inspections of worldwide operations and programs of the Department of State and Broadcasting Board of Governors. The Committee urges the OIG to continue the coordination of audit plans and activities involving Department of State operations and programs in Afghanistan and in Iraq with the Special Inspector General for Afghanistan Reconstruction (SIGAR) and the Special Inspector General for Iraq Reconstruction (SIGIR), as long as appropriate, to both ensure the development of comprehensive oversight plans and to avoid duplication and overlap.

The Committee directs the OIG to coordinate with the SIGIR as the SIGIR transitions out of its role in Iraq to ensure that the necessary audit and investigation activities are continued into fiscal year 2013 and beyond.

#### EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

Fiscal year 2012 enacted level <sup>1</sup> .....	\$583,200,000
Fiscal year 2013 request .....	586,957,000
Committee recommendation .....	586,957,000

<sup>1</sup>In addition, the fiscal year 2012 enacted level includes funds under this heading in title VIII designated OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The Committee recommendation includes \$586,957,000 for Educational and Cultural Exchange Programs, which is \$3,757,000 above the fiscal year 2012 enacted level and the same as the request.

Funding provided under this heading supports international educational, professional, and cultural exchange programs, including the Fulbright student and scholar exchanges, Citizen Exchanges and the International Visitors Program, as well as related staff and administrative costs.

Within the funds appropriated under this heading, the recommendation includes: \$328,461,000 for academic programs; \$193,842,000 for professional and cultural exchanges, including not less than the request for the International Visitor Leadership Program and the Citizen Exchange Programs; \$59,600,000 for exchanges support; and \$5,054,000 for program evaluation. Section 7076 of the bill includes a requirement that the Secretary of State submit to the Committees on Appropriations an operating plan for funds appropriated in titles I and II of this Act. The Committee expects that such plan will include the distribution of unobligated balances and recoveries, as well as any transfers to this account from other accounts in fiscal year 2013.

*Special academic, professional and cultural exchange programs.*—The Committee recommendation does not specify amounts for special academic, professional and cultural exchange programs, as was the practice in prior years. The Committee encourages the Secretary of State to continue support of these programs where consistent with strategic priorities, including Tibetan exchanges and fellowships, the Benjamin A. Gilman International Scholarship Program, the Mike Mansfield Fellowship Program, and the George Mitchell Fellowship Program. The Committee expects that funds for special exchange programs will be awarded on a competitive basis and the planned levels for each will be included in the fiscal year 2013 operating plan.

*Western Hemisphere.*—The Committee encourages the Department of State to expand support of educational and cultural exchange programs with countries in Latin and Central America and increase opportunities in the region for students from disadvantaged backgrounds or historically underserved populations to participate.

*Fee limitation.*—The Committee recommendation includes a limitation of not to exceed \$5,000,000 on the use of fees or other payments received from or in connection with English teaching, educational advising and counseling, and exchange visitor programs as

authorized by law. This is the same as the fiscal year 2012 enacted level and the request.

Funds provided under the PFMO heading are used to reimburse local governments and communities for the extraordinary costs incurred in providing protection for international organizations, foreign missions and officials, and foreign dignitaries under certain circumstances. To be eligible for reimbursement under the regular program, the costs must be incurred in a city with 20 or more consular or diplomatic missions staffed by accredited personnel and all costs must be certified as eligible by the Department of State's Bureau of Diplomatic Security. In addition, funds may be used for reimbursement for an extraordinary event in a jurisdiction that does not meet the regular program eligibility requirements, if specifically authorized. The Committee expects the Department of State to provide reimbursement to local jurisdictions on a timely basis if claims are fully justified.

The Committee requests that the Department of State continue to submit to the Committees on Appropriations a semi-annual report on the number of claims for extraordinary protective services that have been submitted by eligible jurisdictions and certified as meeting the program requirements, and the amount of unobligated funds available to pay such claims.

## EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE

Fiscal year 2012 enacted level <sup>1</sup> .....	\$1,537,000,000
Fiscal year 2013 request .....	1,637,724,000
Committee recommendation .....	1,526,200,000
Change from request .....	- 111,524,000
Change from enacted level .....	- 10,800,000

<sup>1</sup>In addition, the fiscal year 2012 enacted level and the Committee recommendation include funds under this heading in title VIII designated OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The Committee recommendation includes a total appropriation of \$1,526,200,000 for Embassy Security, Construction, and Maintenance, which is \$10,800,000 below the fiscal year 2012 enacted level and \$111,524,000 below the request. Additional funds are provided under title VIII for OCO/GWOT.

The recommendation designates \$688,799,000 for priority worldwide security upgrades, acquisition, and construction, and \$837,401,000 for other maintenance, construction, and operations costs.

This account provides funds to manage United States Government real property overseas, maintain Government-owned and long-term leased properties at approximately 274 locations, and to lease office and functional facilities and residential units, not only for the Department of State, but also for all United States employees overseas.

The recommendation continues language carried in this Act in previous years that prohibits funds from being used for acquisition of furniture, furnishings, and generators for other departments and agencies.

*Capital Security Cost Sharing Program (CSCSP).*—The Committee recommendation continues a provision (section 7004) requiring all agencies and departments to fully meet their capital cost sharing obligations under subsection (e) of section 604 of the Secure Embassy Construction and Counterterrorism Act of 1999, in order to be allocated office space or other accommodations in newly constructed or renovated diplomatic facilities. In addition, the recommendation continues language in section 7004, similar to that carried in fiscal year 2012, directing the Secretary of State, in consultation with the Director of the Office of Management and Budget, to determine the annual program level and agency shares in a manner that is proportional to the Department of State's contribution to the CSCSP. The Committee directs that funds appropriated in prior Acts not be used to augment the Department of State's contribution for purposes of determining the capital cost sharing obligation of other agencies for fiscal year 2013.

*Limitation on the New London Embassy.*—Section 7006 of this Act continues the limitation on the use of funds, other than the revenues generated from real property sales located in London, United Kingdom, for site acquisition and mitigation, planning, design or construction of the New London Embassy and requires regular reporting on the project's progress and cost.

*Operating plan.*—Section 7076 of the bill requires the Secretary of State to submit to the Committees on Appropriations an operating plan for funds appropriated in titles I and II of this Act. Such plan should include all resources available to the Department in fiscal year 2013 for operations, maintenance, and construction, and

an accounting of the actual and anticipated proceeds of sales for all projects in fiscal year 2012.

*Worldwide Security Upgrades (WSU).*—The Committee recommendation includes \$688,799,000 for security projects, which is \$86,201,000 below the fiscal year 2012 enacted level and the same as the request. The funds made available for WSU projects will continue at a reduced pace the multi-year capital security program of constructing new secure replacement facilities for the Department of State’s most vulnerable embassies and consulates and providing additional compound security measures and upgrades. Much progress already has been made. As of the end of calendar year 2011, 88 new facilities had been constructed under the program and another 41 facilities were under design or construction. Combined, these projects represent over half of the 195 facilities identified for replacement following the bombings in Nairobi and Dar es Salaam in 1998. The Committee expects that projects undertaken by this program will continue to address the security of the highest priority facilities.

The recommendation continues prior year language providing the authority to transfer up to \$1,000,000 from this heading to the Repatriation Loans Program heading. This authority will ensure an adequate level of resources for loans to American citizens through the Repatriation Loans Program should additional funds be required in fiscal year 2013 due to an unanticipated increase in the number of loans.

The recommendation, combined with funds derived from visa fee revenue and other reimbursements, will support direct and indirect operating expenses. Any remaining funds will be set aside for special projects and consular service upgrades.

The Taiwan Relations Act requires that programs concerning Taiwan be carried out by the American Institute in Taiwan and authorizes funds to be appropriated to the Secretary of State to carry out the provisions of the Act. The Institute administers programs in the areas of economic and commercial services, cultural affairs, travel services, and logistics. The Department of State contracts with the American Institute in Taiwan to carry out these activities.

The Committee recommendation includes authority for the Secretary of State to transfer up to \$15,300,000 of the funds appropriated under the Diplomatic and Consular Programs heading to funds appropriated under this heading, in the event that Taiwan becomes a Visa Waiver Program country in fiscal year 2013 and these funds are needed to cover residual consular costs that result from the loss of non-immigrant visa fee revenue.

The Retirement Fund is maintained through contributions made by participants, matching government contributions, special government contribu-

tions (including this account), interest on investments, and voluntary contributions.

## INTERNATIONAL ORGANIZATIONS

### CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

Fiscal year 2012 enacted level <sup>1</sup> .....	\$1,449,700,000
Fiscal year 2013 request .....	1,570,005,000
Committee recommendation .....	1,310,769,000
Change from request .....	- 259,236,000
Change from enacted level .....	- 138,931,000

<sup>1</sup>In addition, the fiscal year 2012 enacted level and the Committee recommendation include funds under this heading in title VIII designated OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The Committee recommendation includes \$1,310,769,000 for Contributions to International Organizations, which is \$138,931,000 below the fiscal year 2012 enacted level and \$259,236,000 below the request. Additional funds are provided under title VIII for OCO/GWOT.

The Committee notes that, due to the application of Public Law 101–246 and Public Law 103–236, United States contributions are currently being withheld from the United Nations Educational, Scientific, and Cultural Organization (UNESCO). The funding recommendation reflects the deduction of the amounts requested for assessed contributions to UNESCO in fiscal years 2012 and 2013.

Funds in this account are provided to pay assessments for United States membership in international organizations pursuant to treaties, conventions, or specific Acts of Congress, including the United Nations (UN) and affiliated agencies.

*Membership in international organizations.*—The Committee notes that the joint explanatory statement of the conference accompanying the State, Foreign Operations, and Related Agencies Appropriations Act, 2012 (Public Law 112–74) requires the Secretary of State to conduct a review of United States membership in each international organization supported by this account and prioritize United States participation in, and funding for, each organization in accordance with United States policy goals. The review is also expected to include any recent reforms taken by the organizations. The Committee expects the Secretary of State to update the report not later than 90 days after enactment of this Act.

The Committee expects each international organization, and the Department of State representatives to those organizations, to work to develop processes to evaluate, prioritize, and terminate programs. The Committee further expects efforts will be made to contain overall budgets by eliminating duplicative activities, excessive administrative costs, and inefficient operations.

*United Nations reform.*—The Committee expects the Department of State and the United States Mission to the UN (USUN) to keep UN reform a high priority, and expects the Department and USUN to work in conjunction with other UN member states to achieve the most effective and efficient UN possible. The Committee continues to closely monitor the management reform efforts initiated in prior years to identify overlapping and outdated mandates in order to make the UN more efficient, accountable, and transparent.

The Committee expects the Department of State to encourage and support the UN to build a strong and lasting capability to investigate waste, fraud, and abuse. The Committee directs USUN

and the Department of State to continue to advocate for an independent Office of Internal Oversight Services (OIOS) to improve internal controls, efficiency, and effectiveness of the UN. The Committee also expects the UN and each specialized agency to have a designated official to carry out an independent ethics function, and to provide protection from retaliation to whistleblowers who volunteer information concerning waste, fraud, or abuse within the agency.

The Committee recommendation includes modified language in title VII withholding a portion of the funds for the United Nations or any international organization until the Secretary of State certifies that certain transparency requirements have been met. The Committee recommendation provides the Secretary the ability to waive the requirement to avert a humanitarian crisis.

The Committee recommendation includes prior year language under this heading requiring that the Secretary of State report to the Committees on Appropriations not later than May 1, 2013, on any credits available to the United States from the United Nations Tax Equalization Fund (TEF) and provide semi-annual updates on the estimates of assessed costs for the current and following fiscal year, including offsets from available TEF credits and updated foreign currency exchange rates.

*Americans working for the United Nations.*—The Committee recognizes that Americans provide many skills that can contribute to making the UN more efficient, effective, and accountable and encourages the Department of State to continue efforts to increase the number of qualified Americans employed by the UN and other international organizations.

*Capital Master Plan (CMP).*—The Committee recommendation includes language prohibiting funds in this bill for the design, renovation, and construction of the UN Headquarters. The Committee expects USUN and the Department of State to continue to monitor the progress of the UN Headquarters CMP and directs the Department of State to provide an updated report to the Committees on Appropriations, not later than 90 days after enactment of this Act, on the current status of the CMP, including its initial scope and costs, any modifications made or planned, and the total contributions made to date by each UN Member state.

*Operating plan.*—The Committee includes language in title VII requiring an operating plan for Contributions to International Organizations, not later than 30 days after enactment of this Act. The Committee expects the operating plan to include each international organization funded, a notation of any exchange rate fluctuations that occurred since the Congressional budget justification was developed, and a description of any TEF credits applied. This operating plan may also serve as one of the semi-annual updates required under the third proviso of the Contributions to International Organizations account.

*United Nations regular budget.*—The Committee includes language carried in prior years requiring that any proposal to increase funding for any UN program without identifying an offsetting decrease in the UN budget must be communicated to the Committees on Appropriations in advance of the formal notification, consideration, and adoption of such a proposal in the General Assembly.

*United Nations Human Rights Council (UNHRC).*—The Committee is deeply concerned about the credibility and effectiveness of the UNHRC, especially because of its disproportionate focus on Israel. The Committee also notes with disappointment the ascension to the UNHRC of countries with poor human rights records. The Committee recommendation includes modified language in title VII prohibiting funds to the UNHRC unless certain conditions are met.

*Organization of American States (OAS).*—The Committee is concerned that the OAS may not be fully pursuing some of its obligations under the Inter-American Democratic Charter and directs the Department of State to report to the Committees on Appropriations, not later than 90 days after enactment of this Act, on efforts the United States is taking to push the OAS to uphold all aspects of the Charter.

*Voting practices of the United Nations.*—The Committee directs the Department of State to continue to submit a report to the Committees on Appropriations, not later than 120 days after enactment of this Act, on the voting practices of UN member states.

#### CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

Fiscal year 2013 request .....	2,098,500,000
Committee recommendation .....	1,828,182,000
Change from request .....	–270,318,000
Change from enacted level .....	0

The Committee recommendation includes \$1,828,182,000 for Contributions for International Peacekeeping Activities, which is the same as the fiscal year 2012 enacted level and \$270,318,000 below the request. The Committee provides funding for the UN logistics and support package for the African Union Mission in Somalia under Peacekeeping Operations, instead of under this heading.

The Committee recommendation retains language carried in the prior year requiring 15-day advance notice of any new or expanded mission, together with a statement of cost, duration, national interest, exit strategy, and source of funds. The recommendation also continues language stating that funds shall be made available for peacekeeping activities unless the Secretary of State determines that American manufacturers and suppliers are not being provided equal procurement opportunities, language making a portion of appropriations available for two fiscal years, language prohibiting funds for any peacekeeping mission that will involve United States Armed Forces under the command and control of a foreign national unless certain requirements have been met, and language requiring a report on any credits available from United Nations peacekeeping missions or the Tax Equalization Fund and requiring that these credits may only be available through the regular notification procedures of the Committees on Appropriations. The Committee does not include the request to make all funds under this heading available for two fiscal years.

*Peacekeeping cap.*—The Committee recommendation does not include a requested provision to adjust the authorized level of the United States assessment for peacekeeping activities from 25 percent to 27.2 percent. The Committee understands that this matter is under review by the authorization committee of jurisdiction.

*Re-evaluating peacekeeping priorities.*—The Committee urges the Department of State and USUN to work with the UN Department of Peacekeeping Operations to re-evaluate all peacekeeping activities by addressing the number of missions, limiting the scope of missions, reconsidering changes to mandates when political resolutions have stalled, and contemplating phase-out and withdrawal when mission goals have been substantially achieved. The Committee directs the Secretary of State to provide a report, not later than 180 days after enactment of this Act, on efforts made to address these issues.

*Office of Internal Oversight Services (OIOS).*—The Committee continues to support the efforts of the UN’s OIOS to identify waste, fraud, and abuse (including sexual abuse in peacekeeping operations), and to recommend specific reforms to ensure that such practices are eradicated. The Committee expects the Department of State to provide the necessary support to ensure that OIOS oversight is brought to bear on UN peacekeeping missions. The Committee directs the Department to request a performance report on the efforts of OIOS to identify waste, fraud, and abuse, and provide the information to the Committees on Appropriations.

*Trafficking in persons and illegal sexual exploitation.*—The Committee remains concerned about cases of UN peacekeepers abusing the people they have been sent to protect. The Committee recommendation includes language, modified from the prior year, requiring that, prior to obligating or expending funds for any new or expanded peacekeeping mission, the UN has taken necessary measures to prevent UN employees, contractor personnel, and peacekeeping troops serving in the mission from trafficking in persons, exploiting victims of trafficking, or committing acts of illegal sexual exploitation or other violations of human rights, and that the UN bring to justice individuals who engage in such acts while participating in the peacekeeping mission, including the prosecution in the home countries of such individuals in connection with such acts.

*Operating plan.*—The Committee includes language in section 7076 requiring an operating plan for Contributions to International Peacekeeping Activities, not later than 30 days after enactment of this Act. The Committee expects the operating plan to include each peacekeeping mission funded and a description of any credits applied.

*Rio Grande Flood Control System Rehabilitation.*—The Committee recommendation includes funding for the Rio Grande Flood Control System Rehabilitation Project to continue and maintain levee projects along the Rio Grande River, as well as funding for environmental, hydrologic and hydraulic studies along the Rio Grande Valley, which are consistent with the projects outlined within the Mexican Water Treaty of 1944, Treaty Series 994.

*Cross-border sediment flow.*—The Committee encourages the IBWC to better mitigate cross-border sediment flow from Mexico to the United States. Cross-border sediment flow threatens estuary ecosystems along the border and is an impediment to ecological sustainability in the border region.

The Commissions funded by this appropriation were established by treaties and agreements negotiated by the United States, ratified by the President and received the advice and consent of the Senate. The treaties protect access to shared international fisheries resources and support other vital economic and environmental interests. The commercial and recreational fisheries managed by these organizations generate income from \$12 to \$15 billion annually for the United States.

The Committee recommendation for International Broadcasting Operations under this heading is \$740,100,000, which is the same as the fiscal year 2012 enacted level and \$28,542,000 above the request. In addition, the recommendation allows a transfer of funds to support broadcasting to the Afghanistan/Pakistan border region from funds appropriated in title VIII under the Economic Support Fund heading and designated as OCO/GWOT. The Committee expects that the fiscal year 2013 operating plan required by section 7076 of this Act will include the distribution of the transferred funds by BBG activity.

This account funds the operating, program, and engineering costs of Voice of America (VOA), Radio Free Europe/Radio Liberty (RFE/RL), Radio Free Asia (RFA), the Middle East Broadcasting Networks, Radio and TV Marti, and the BBG. The recommendation also includes funding for broadcasting to Cuba under this account. The Committee recommendation also continues the directive to expand unrestricted access to information on the Internet through the development and use of circumvention technologies. The Committee commends BBG for its work in this area and requests that the operating plan required by section 7076 of the bill include amounts planned for internet freedom activities in fiscal year 2013.

*Broadcasting to Asia.*—The Committee supports maintaining a diversified broadcasting program to China that includes the continuation of short wave broadcast services. The Committee does not concur with the proposed cuts in VOA and RFA broadcasting to East Asia. The Committee directs the BBG to continue such broadcasts, including to China (Cantonese and Mandarin), Tibet, Laos, and Vietnam, at not less than the fiscal year 2012 levels as measured both by funding and broadcast platform hours.

The Committee recognizes the VOA for its essential contribution to the public diplomacy efforts of the United States. With the exception of the proposed enhancements for news and current affairs television broadcasts to Egypt, the Committee recommendation does not include the funds requested for program enhancements. The Committee will consider those enhancements during the review of the BBG's operating plan for fiscal year 2013, if acceptable savings are found from other activities.

*Broadcasting to Afghanistan and Pakistan border region.*—The Committee recommendation allows the Secretary of State to transfer funds to this heading from funds appropriated under the Economic Support Fund heading, and designated for OCO/GWOT, to support the extraordinary costs of both RFE/RL's Radio Mashaal

The Committee encourages TAF to continue to seek donations from private foundations and corporations, competitively bid awards from governmental and multilateral development agencies, and fee-based or reimbursable agreements as a means of sustaining its activities, programs and offices in an environment of fiscal constraint. The Committee requests that TAF continue to include a summary table in its annual Congressional budget justification detailing total revenue and support by category for fiscal year 2012 and projected for fiscal year 2013.

TITLE II—UNITED STATES AGENCY FOR INTERNATIONAL  
DEVELOPMENT

FUNDS APPROPRIATED TO THE PRESIDENT

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

Fiscal year 2012 enacted level <sup>1</sup> .....	\$1,092,300,000
Fiscal year 2013 request .....	1,263,045,000
Committee recommendation .....	1,015,706,000
Change from request .....	- 247,339,000
Change from enacted level .....	- 76,594,000

<sup>1</sup>In addition, the fiscal year 2012 enacted level, the fiscal year 2013 request, and the Committee recommendation include funds under this heading in title VIII designated OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The Committee recommendation includes \$1,015,706,000 for USAID Operating Expenses, which is \$76,594,000 below the fiscal year 2012 enacted level and \$247,339,000 below the request. Additional funds are provided under title VIII for OCO/GWOT.

Funds under this heading are provided for salaries and expenses of overseas and domestic employees of USAID, personal service contractors, and employees hired by other Federal agencies but assigned to USAID. Funds under this heading are also provided to support resident USAID staff overseas as well as headquarters staff that support field programs and manage regional and worldwide activities.

As in fiscal year 2012, the Committee directs the Administrator of USAID to provide a report, not later than 60 days after enactment of this Act, that details the number of people employed by USAID, the category of employment (direct hire, personal service contractor, Participating Agency Service Agreement, and similar categories), the veteran status of direct hires employed by USAID, the office or overseas post to which they are assigned or detailed, the appropriation account used to fund the employees, specific legislative authority needed to hire the employees, and if hired by another Federal agency, the additional administrative expenses charged by that agency. The Committee directs that this employment report reflect data as of the end of fiscal year 2012.

As in past years, USAID is directed to notify the Committees on Appropriations 15 days prior to any procurement action that involves awarding of a sole source contract or other non-competitive grant or contract; raising the ceiling on an existing Indefinite Quantity Contract (IQC); issuing a new IQC; awarding an umbrella grant; or raising the ceiling on an existing umbrella grant. The Committee expects the thresholds for notification to be the same as in the prior year. The Committee notes that this requirement does not apply for assistance in critical priority countries and assistance for humanitarian response or post-conflict situations.

*New programs.*—The Committee includes a provision under this heading that makes all new programs, fellowships, and initiatives not previously justified in the Congressional budget justification subject to the regular notification procedures of the Committees on Appropriations. The Committee directs the Administrator of USAID to award fellowship programs on a competitive basis.

*Diversity engagement.*—The Committee supports continued funding for fellowships as part of USAID's Diversity Engagement Program and directs that funding be provided on a competitive basis. The Committee recommendation includes continued funding for the Office of Civil Rights and Diversity for recruitment activities.

*Faith-based organizations.*—The Committee notes the important role that faith-based organizations (FBOs) play in the delivery of foreign assistance and expects USAID to ensure compliance with existing Federal laws protecting the rights of FBOs from discrimination in competing for and administering projects funded with United States foreign assistance.

*Innovative technologies.*—The Committee recognizes the efforts of non-governmental organizations working in poor communities in developing nations that are advancing innovative technologies to provide long-term solutions to combat hunger and poverty.

*Procurement reform.*—The Committee remains cautious about USAID's rapid implementation of its procurement reform efforts. The Committee recommendation includes new language requiring the Administrator of USAID to consult with the Committees on Appropriations prior to issuing guidance through a Procurement In-

formation Bulletin that changes current regulations on acquisition and assistance. The Committee has not included authorization language as requested for a working capital fund. The Committee agrees that oversight of procurement, whether local or at headquarters, should be strongly supported.

*Direct Government-to-Government assistance.*—The Committee remains concerned about USAID’s intentions to increase funding to host countries for their own procurement actions. While the Committee supports efforts to develop capacity and sustainability of foreign recipient governments, the Committee remains concerned that USAID’s procurement goals are neither realistic nor in the best interest of the United States taxpayer. The Committee recommendation continues section 7031(a), which is intended to ensure that transparency, accountability, and anti-fraud measures are in place prior to the provision of such assistance. Specifically, the Committee disagrees with any assumption of acceptable levels of fraud in USAID programs. Additionally, the provision includes a new certification that the recipient country demonstrates a commitment to democracy and a new subsection prohibiting assistance for the purpose of paying a foreign country’s debt to multilateral development banks or United Nations assessments.

*Closing of missions.*—USAID provides assistance to 101 countries worldwide and maintains an on-the-ground presence in 87 missions. The Committee encourages USAID to identify savings through closing missions, especially in countries where foreign assistance is no longer necessary and directs the Administrator of USAID to provide an estimate to the Committees on Appropriations for fiscal years 2013, 2014, and 2015 resulting from closing missions and identifying the location of such missions.

*Partner vetting system.*—The Committee includes language in section 7034, modified from prior years, regarding a global partner vetting system.

*Security training.*—The Committee recommends that security training be offered to all implementers of programs funded in this Act for the purpose of promoting democracy or civil society in a closed society or a state, in which the government is otherwise hostile to democratic reforms. Such implementers shall include non-governmental organizations and their sub-grantees, as well as contractors and their subcontractors. Such training should be tailored to the special challenges of working within the particular state or region in which the entities being trained will be operating. The Committee recommends that costs for such security training be provided from funds made available under this heading. The Committee directs the Administrator of USAID, in consultation with the Secretary of State, to report to the Committees on Appropriations, not later than 90 days after enactment of this Act, on the costs associated with this training initiative. The Committee further directs the Secretary of State and the Administrator of USAID to jointly consult with the Committees on Appropriations on efforts in fiscal year 2013 to meet this goal.

*Mass atrocities prevention.*—The Committee notes USAID’s efforts to train relevant personnel in genocide and mass atrocities prevention and directs USAID to consult with the Committees on Appropriations on progress implementing this training.

The Committee directs the Office of Inspector General to provide a summary of the oversight that will be undertaken during fiscal year 2013 as part of its operating plan that is required in title VII of this Act.

## TITLE III—BILATERAL ECONOMIC ASSISTANCE

## FUNDS APPROPRIATED TO THE PRESIDENT

## GLOBAL HEALTH PROGRAMS

## (INCLUDING TRANSFER OF FUNDS)

Fiscal year 2012 enacted level .....	\$8,167,860,000
Fiscal year 2013 request .....	7,854,000,000
Committee recommendation .....	8,017,711,000
Change from request .....	+163,711,000
Change from enacted level .....	- 150,149,000

The Committee recommendation includes \$8,017,711,000 for Global Health Programs, which is \$150,149,000 below the fiscal year 2012 enacted level and \$163,711,000 above the request.

The Committee includes assistance under this heading for countries previously included under Assistance for Europe, Eurasia, and Central Asia (AEECA).

## USAID GLOBAL HEALTH PROGRAMS

The Committee recommendation includes \$2,474,851,000 for global health programs to be directly apportioned to USAID, which is \$150,149,000 below the fiscal year 2012 enacted level and \$29,149,000 below the request.

The Committee supports the fiscal year 2012 funding level for bilateral maternal and child health, programs for vulnerable children, nutrition, malaria, and tuberculosis. The Committee does not support the reductions proposed for these programs in the Presi-

dent's budget request. Funding for family planning and reproductive health programs is the same as the fiscal year 2008 level.

*Maternal and child health.*—The Committee directs that not less than the fiscal year 2012 levels be provided for bilateral maternal and child health programs. The health of a mother is directly related to the health of her children, and the Committee is committed to maintaining an emphasis on expanding access to programs that have been proven effective in reducing maternal and child mortality.

The Committee recommends that USAID implement a multi-faceted nutrition program that includes agriculture, food aid, and health interventions and keep the Committees on Appropriations updated on its progress as necessary.

Within funds provided, the Committee also encourages USAID to continue supporting iodine deficiency disorder programs and vulnerable children programs, including childhood blindness and cleft lip/palate treatment.

The Committee requests that USAID consult with the Committee on the estimated need and cost-effectiveness of a program to eliminate maternal and neonatal tetanus, treat children with hydrocephalus, assist children affected by trauma, and support children with autism.

*Polio.*—The Global Polio Eradication Initiative is one of the largest, most successful, public-private health initiatives ever undertaken. Funds provided under this heading will allow USAID to continue to provide critical technical and operational support for immunization and disease surveillance activities in order to capitalize on the historic opportunity to interrupt transmission of polio.

*Neglected tropical diseases.*—The Committee notes the success by USAID in combating neglected tropical diseases and supports the continuation of these successful life-saving programs.

*Microbicides.*—The Committee recommends continued support for microbicide development and directs the Office of the Global AIDS Coordinator (OGAC) to coordinate with USAID, the National Institutes of Health, other Federal agencies, and donors in order to advance microbicide development and implementation.

*Vaccines.*—The Committee strongly supports the Global Alliance for Vaccines Initiative (GAVI) and recognizes that a country's immunization coverage rate directly relates to child mortality and overall development of a country. Additionally, the Committee commends the GAVI Secretariat for its commitment to a strong Office of Inspector General and GAVI's efforts to post all audits on its web site for public accessibility. The Committee notes that prior funding provided in this Act has only been used for the purchase of vaccines, and has not supported the cash assistance program. The Committee expects this practice to continue. Additionally, the Committee directs that the United States contribution from this and prior acts only be available for those vaccines that have a direct impact on child survival, such as vaccines for rotavirus and pneumococcal.

The Committee agrees that developing a vaccine is essential to the fight against HIV and malaria and encourages USAID to continue funding to support their advancement.

*Health technology.*—The Committee continues to support USAID's health technologies programs, including the development

of technologies that maximize the limited resources available for global health and ensure that products and medicines developed for use in low-resource settings reach the people that need such products and medicines.

*Healthcare workforce.*—The Committee directs the Administrator of USAID, in consultation with the Global AIDS Coordinator at the Department of State, to submit a comprehensive strategy, not later than 90 days after enactment of this Act, for increasing equitable access to qualified health workers in developing countries, particularly in underserved areas.

*Reproductive health/voluntary family planning.*—The Committee recommendation includes section 7058 which provides not more than \$461,000,000, the same as the fiscal year 2008 level, for reproductive health and voluntary family planning in this Act. This provision also addresses funds provided under the heading “Economic Support Fund” for reproductive health and family planning.

The Committee has continued prior year language that does the following: (1) requires that none of the funds appropriated in this Act, or any unobligated balances, may be made available to any organization or program, which as determined by the President, supports or participates in the management of a program of coercive abortion or involuntary sterilization; (2) states that funds cannot be used to pay for the performance of abortions as a method of family planning or to motivate or coerce any person to practice abortion; (3) specifies that population funds shall be available only to voluntary family planning projects that offer, either directly or through referral, information about access to a broad range of family planning methods and services; (4) requires that in awarding grants for natural family planning under section 104 of the Foreign Assistance Act, no applicant shall be discriminated against because of such applicant’s religious or conscientious commitment to offer only natural family planning; and (5) requires the provision of accurate information related to condoms.

The Committee includes language in section 7065 prohibiting funds for any foreign nongovernmental organization that promotes or performs abortion, except in cases of rape or incest or when the life of the mother would be endangered if the fetus were carried to term.

*Theft of drugs.*—The Committee is alarmed by reports that a portion of drugs procured with bilateral and multilateral funds appropriated for global health programs were stolen by speculators and dealers. The Committee notes that results must be judged on delivery of life-saving medications to sick patients, not whether these medicines are simply provided to a central distribution point. The Committee directs the Administrator of USAID and the Global AIDS Coordinator to provide to the Committees on Appropriations, not later than 60 days after enactment of this Act, a strategy for addressing the theft of medicines, including an assessment of the breadth of the problem of drug theft, which drugs are stolen and from which countries, and specific steps taken to date to fight the misappropriation of drugs funded through appropriations provided for bilateral and multilateral activities.

*Report.*—The Committee recognizes that several Federal agencies implement global health funding provided in this Act and directs the Department of State and USAID to provide a government-wide

funding summary for fiscal year 2012, and projected for fiscal year 2013, including funding provided in other appropriations bills, to the Committees on Appropriations not later than 90 days after enactment of this Act. The Committee expects the report to include a description of the differentiation of goals, implementing partners, and auditing standards for each Federal agency.

*Europe, Eurasia, and Central Asia.*—In fiscal year 2013, the Congressional budget justification reflected assistance requested for countries in Europe, Eurasia, and Central Asia through the Economic Support Fund, International Narcotics Control and Law Enforcement, and Global Health Programs accounts instead of under the Assistance to Europe, Eurasia and Central Asia (AEECA) heading. The Committee recommendation does not include the AEECA heading and funds programs for these countries in the relevant program accounts.

*Department of State, Office of the United States Global AIDS Coordinator (OGAC)*

The Committee recommendation includes \$5,542,860,000 to be directly apportioned to the Department of State for programs to prevent and treat HIV/AIDS. This level is the same as the fiscal year 2012 enacted level and \$192,860,000 above the request. This level of funding assumes \$4,242,860,000 for the bilateral programs under the President's Emergency Plan for AIDS Relief (PEPFAR) and \$1,300,000,000 for the Global Fund to Fight AIDS, TB, and Malaria (the Global Fund).

In addition to funds in this paragraph, the Committee provides the fiscal year enacted 2012 level for HIV/AIDS programs under this heading that are directly apportioned to USAID. Therefore, the bill provides a total of \$5,892,860,000 to fight HIV/AIDS.

The Committee's recommendation supports: a United States contribution to UNAIDS; continued investment in implementation research, including operations research and impact evaluation; efforts to expand prevention of Mother-to-Child Transmission programs; and funding for pediatric HIV treatment programs in order to meet the targets included in the PEPFAR statute and in the PEPFAR five-year plan. The Committee encourages OGAC to identify new tools to diagnose and safely treat children living with HIV.

*Needles.*—The Committee directs that no funds in fiscal year 2013 may be used for needle exchange programs.

*Cost efficiencies.*—The Committee is committed to ensuring that every available dollar in PEPFAR funds goes toward providing effective services. Given the now-established benefits of antiretroviral treatment in improving health and preventing new infections, the Committee supports PEPFAR's efforts to continue to reduce per patient costs for such treatment. The Committee directs OGAC to consult with the Committee on its efforts to achieve such savings not later than 45 days after enactment of this Act.

*Administrative and overhead costs.*—The Committee directs OGAC to report to the Committees on Appropriations, not later than 45 days after enactment of this Act, on the amount and percentage of administrative and overhead costs for PEPFAR funds for fiscal year 2012 by implementing agency.

*Media.*—The Committee recommends that USAID and OGAC continue to support HIV-related media prevention programming, which can serve as an effective prevention tool.

*Reports.*—The Committee directs that the Administrator of USAID and the Global AIDS Coordinator include in its annual report to Congress as required by Public Law 109–95, the funding levels for programs included in Public Law 110–293 relating to orphans and other children affected by HIV/AIDS for fiscal year 2012 and estimated for fiscal year 2013.

*Global Fund to Fight AIDS, Tuberculosis and Malaria (the Global Fund).*—The Committee is supportive of a performance-based, results-oriented multilateral funding mechanism to combat HIV/AIDS and other infectious diseases. The Committee commends the Global Fund Board for adopting the recommendations of the High-Level Independent Review Panel on Fiduciary Controls and Oversight Mechanism (the High-Level Panel) and directs OGAC to continue to update the Committees on Appropriations on the Global Fund's execution of the High-Level Panel's recommendations throughout the year.

The Committee recommendation designates that up to five percent of funds provided to the Global Fund may be used for Global Fund technical assistance. OGAC should continue to support efforts to strengthen country coordinating mechanisms and principal recipients, improve procurement and supply chains in-country, and increase technical capacity of implementing governments and organizations. The Committee encourages the use of the Department of Treasury's Office of Technical Assistance, funded through transferred funds, in providing procurement and budgetary specialists on a temporary basis to Global Fund countries.

Oversight of the Global Fund remains a top priority for the Committee. The Committee continues to support the independence of the Office of Inspector General and continues language to withhold 10 percent of funds provided to the Global Fund until the Secretary of State certifies to the Committees on Appropriations that the Global Fund's Secretariat and Board have not adopted policies that would make the work of the Office of Inspector General less transparent or less comprehensive.

As in past years, the Secretary of State is directed to provide a report to the Committees on Appropriations, not later than 120 days after enactment of this Act, that contains the most recent Global Fund audit information, commitment and disbursement data, and a summary of the recipient and sub-recipient expenditures as reported to the United States Government.

In addition to the certification required in section 7058 concerning the function and role of the Office of Inspector General, the Committee directs the Secretary of State to report to the Committees on Appropriations, not later than 60 days after enactment of this Act and updated every six months until September 30, 2013, on the following:

- (1) a description of improvements made to the Global Fund's financial systems and fiduciary controls for grant management in the prior six months;
- (2) a list of countries that tax Global Fund assistance and the estimated tax collected each year, by country;

(3) the status of the United Nations Development Programme's transition plan for each country in which it operates as an implementer of Global Fund grants; and

(4) the degree of Board access to, and transparency of, internal Secretariat budgetary expenditures, including contingency funds and other unspecified funds used at the discretion of Secretariat personnel.

#### DEVELOPMENT ASSISTANCE

Fiscal year 2012 enacted level .....	\$2,519,950,000
Fiscal year 2013 request .....	2,525,500,000
Committee recommendation .....	2,519,950,000
Change from request .....	- 5,550,000
Change from enacted level .....	0

The Committee recommendation includes \$2,519,950,000 for Development Assistance, which is the same as the fiscal year 2012 enacted level and \$5,550,000 below the request.

The Committee endorses USAID's commitment to support programs that create conditions where assistance will no longer be needed because countries have become financially independent and, therefore, encourages USAID to demonstrate where and how this goal is being achieved. The Committee supports USAID's proposal to focus Development Assistance in countries that demonstrate a commitment to improving transparent, accountable, and responsible governance, where United States assistance is most likely to produce significant and sustainable development results. The Committee urges USAID to ensure that its assistance does not compete with emerging small businesses, entrepreneurs, and local economies in recipient countries, and instead works to strengthen them. The Committee expects the Department of State and USAID to ensure programs and policies for learning, evaluation, and research include assessments of organizations implementing United States foreign assistance and directs the Administrator of USAID to consult with the Committees on Appropriations on these efforts.

#### *Agriculture*

The Committee supports the goals of the Feed the Future Initiative and notes that funds should support food security and agriculture development programs. These investments are expected to enhance stability in fragile areas, reduce dependence on foreign aid, and increase goodwill toward the United States. The Committee notes the important role of agriculture research in food security and supports the budget request for Collaborative Research Support Programs (CRSPs). The Committee understands that USAID has supported efforts to ensure the long-term productivity of global agriculture by conserving and making available key collections of diverse crops and the Committee supports continuing these efforts.

*Spend plan.*—Pursuant to title VII, the Administrator of USAID is required to submit a spend plan on food security and agriculture development detailing the proposed use of funds by account, office, and country, prior to funds being obligated. The spend plan should also specify any funds to be transferred to other agencies or international financial institutions and for what purpose.

### *Economic Growth*

*Cooperative development programs.*—The Committee recognizes the important role that cooperatives and credit unions play in overseas development assistance programs and directs USAID to provide \$10,000,000 to these programs.

*Microfinance.*—The Committee recommendation includes \$265,000,000 in this Act for microenterprise and microfinance development programs. The Committee notes the successful track record of microfinance programs and directs that funds be targeted to the poor, especially women. The Committee encourages investment in a variety of financial services that allows the poor to save, borrow, and access insurance, remittances, and other key services. The Committee urges the Administration to prioritize investment in microfinance in sub-Saharan Africa and directs USAID to consult with the Committees on Appropriations on efforts to focus existing resources for this program. As required by section 251(c) of the Foreign Assistance Act of 1961, USAID is to target half of all microfinance and microenterprise funds to the very poor, defined as those living on less than \$1.25 a day. For the purposes of conducting poverty assessments for microenterprise and microfinance programs, USAID may certify for use external poverty assessment tools if determined to be commensurate with its current poverty survey tools. The Committee supports the efforts of the Department of State to promote and preserve the independence of civil society and private enterprise in Bangladesh, including the banking sector.

*Millennium Challenge Corporation (MCC).*—The Committee notes that several countries are negotiating with the Administration on second compacts with the MCC. MCC compacts are intended to be a catalyst for change in poorer countries helping to lay the groundwork for the private sector to increase investments and thereby generate long-term economic growth. The Committee directs the Administrator of USAID to submit a report to the Committees on Appropriations, not later than 120 days after enactment of this Act, on the efforts USAID is taking to graduate MCC's second compact countries from official development assistance and provide an estimate of potential savings.

*Trade capacity building.*—The Committee continues to support labor and environment capacity building activities related to the free trade agreements with the countries of Central America, Colombia, Peru, and the Dominican Republic to ensure that United States workers and businesses can compete on a level playing field.

### *Education*

*American Schools and Hospitals Abroad (ASHA).*—The Committee recommendation includes \$23,000,000 for the American Schools and Hospitals Abroad program, which is the same as the fiscal year 2012 enacted level. The Committee recognizes the important contributions made by institutions funded by this program, particularly its programs in Africa and the Middle East. The Committee endorses ASHA support for new applicants that demonstrate the best of American ideas and practices in the regions they serve. The Committee expects ASHA funds to continue to be allocated through an open and competitive process.

*Basic education.*—The Committee believes education should be a key component of the United States Government strategy in developing countries. An educated citizenry will result in sustained economic growth, strengthened democratic institutions, the empowerment of women and girls, and decreased extremism. The Committee recommendation includes a total of \$800,000,000 for basic education programs in this Act, which is the same as the fiscal year 2012 enacted level, of which \$260,000,000 is provided under this heading. The Committee encourages USAID to prioritize the special needs of girls' education and schools in conflict or post-conflict settings. Given education's importance to achieving the goals of presidential initiatives and other objectives of the United States, the Committee believes that basic education should be identified as a core development objective and considered an agency priority for budget and strategy.

The Committee believes that schools can be centers of learning and development for an entire community and expects that programs in other sectors should be integrated with schools and educational programs as much as possible. USAID should prioritize technical assistance for local governments to foster communities of learning and should encourage recipient countries and other donors to pursue comprehensive development efforts to support these programs. USAID is directed to consult with the Committees on Appropriations on this initiative on a regular basis.

The Committee supports United States participation in the Global Partnership for Education and has provided authority to USAID to make a contribution to the Partnership in fiscal year 2013. The Committee has taken this contribution into account in its consideration of resources under title III of this Act and directs USAID to report to the Committees on Appropriations, not later than 90 days after enactment of this Act, on the planned uses of this contribution. As part of the report, the Committee directs USAID to include progress toward the development of a performance-based financing system based on mutual accountability between donors and recipients for achieving measurable results in access and quality; and efforts to expand civil society participation in the Partnership's governance.

*University programs.*—The Committee recognizes the value of USAID's work with American institutions of higher education and supports their contributions to development assistance and foreign policy goals. The Committee continues to support partnerships between higher education institutions in Africa and the United States and expects that proposals will be considered through an open and competitive process. The Committee notes USAID's recent competitive opportunities to partner with and leverage the technical expertise and resources of universities to solve global development challenges. The Committee expects the Administrator of USAID to provide regular updates on these efforts.

#### *Global Programs*

*Child marriage.*—The Committee directs the Secretary of State, in consultation with the Ambassador-at-Large of the Office for Global Women's Issues, and other relevant United States Government agencies to submit a report to the Committees on Appropriations, not later than 180 days after enactment of this Act, detailing

a multi-year United States Government strategy to prevent child marriage that will inform and empower at-risk girls, as well as their families and communities, in developing countries. The strategy should focus on areas with high prevalence of child marriage and identify diplomatic and programmatic initiatives to address these issues.

*Conservation.*—The Committee notes USAID’s ongoing efforts in conservation and directs the Department of State, in consultation with USAID, to provide a report to the Committees on Appropriations on actions being taken by the United States to support anti-poaching activities in southern Africa, including efforts to combat the recent increase of trade in rhinoceros horns. This report should also detail diplomatic and development efforts to deter trading in Asia of poached items from Africa.

*Gender-based violence.*—The Committee recommendation continues support for programs that address sexual and gender-based violence pursuant to section 7061. The Committee directs that the Secretary of State, in consultation with the Ambassador-at-Large of the Office for Global Women’s Issues, should identify and take emergency measures to respond to violence against women and girls in situations of armed conflict and directs the Secretary of State to consult with the Committees on Appropriations, as necessary.

*Reconciliation programs.*—The Committee recommendation includes \$26,000,000 in this Act to continue support for USAID’s reconciliation programs, which is the same amount provided in fiscal year 2012. The Committee expects funds to be provided through an open and competitive process. The Committee directs not less than \$10,000,000 of these funds be provided to support people-to-people reconciliation programs in the Middle East to foster reconciliation between Arab and Israeli populations. The Committee notes that an initiative to build understanding, tolerance, and mutual respect among the next generation of Israeli and Palestinian leaders was included in the joint explanatory statement accompanying the State, Foreign Operations, and Related Agencies Appropriations Act, 2012 (Public Law 112–74) and expects USAID to consult with the Committees on Appropriations on these programs.

*Water, sanitation, and hygiene.*—The Committee recommendation includes \$315,000,000 in this Act for water and sanitation supply projects. The Committee directs that this funding be provided pursuant to Public Law 109–121 and should prioritize the poorest communities and countries, including in sub-Saharan Africa.

*Women’s leadership capacity.*—The Committee notes that empowering women to be leaders in their communities has transformative

economic and social benefits. The Committee recommendation includes \$20,000,000 for women's leadership training programs. The Committee intends that these funds will support projects that promote women's political, economic, and social advancement in developing countries.

*Mexico.*—The Committee recommendation includes \$33,350,000 for assistance for Mexico which is the same as the fiscal year 2012 level. An additional \$35,000,000 is included for Mexico under Economic Support Fund. The Committee expects this assistance to be directed only to programs for rule of law and human rights, good governance, civil society, education, and private sector competitiveness.

mocracies, and supports continued engagement with the region, including through foreign assistance programs. The Committee notes that the Coordinator of United States Assistance to Europe and Eurasia for the region has helped to align assistance with foreign policy priorities, develop whole-of-government assistance strategies for each country, and leverage resources from other international donors. *Colombia.*—The Committee recommendation includes \$155,000,000 for Colombia, which is the same as the request, and is to be apportioned directly to USAID for continued support of new and ongoing development programs. The Committee endorses the proposed use of funds in the request to support conflict-affected populations including Afro-Colombians and other indigenous communities and refugees that have been displaced from Colombia. The Committee expects NED to work with the core institutes and other grantees that have extensive, continuous, and current experience in Cuba. Assistance provided for Cuba under this heading shall not be used for business promotion, economic reform, social development, or other purposes not expressly authorized by section 109(a) of the LIBERTAD Act.

*Mexico.*—The Committee recommendation includes \$35,000,000 for assistance for Mexico, which is the same as the request. An additional \$33,350,000 is included for Mexico under Development Assistance. The Committee expects this assistance to be directed only to programs for rule of law and human rights, good governance, civil society, education, and private sector competitiveness. The Committee supports USAID's border development programs to address the root causes of violence and instability, including poverty and unemployment of border residents.

The Committee notes the report required in the explanatory statement accompanying the Department of State, Foreign Oper-

ations, and Related Programs Appropriations Act, 2012 (Public Law 112–74) has not been submitted to the Committee and directs that an additional report be submitted for fiscal year 2013 detailing how programs funded under this heading and under Development Assistance are addressing the root cause of violence and instability.

The Committee continues to support the role that American educational institutions play in promoting democratic principles by providing educational opportunities to students in the region. Of the amounts provided for MEPI programs, \$10,000,000 should be used to continue a scholarship program to educate students from countries with significant Muslim populations at not-for-profit institutions of higher education that meet the standards comparable to those required for American accreditation. These funds are to be awarded through an open and competitive process. The Committee supports efforts to promote peace and stability in the Middle East including programs that combat incitement and propaganda.

The Committee is troubled by the ongoing violence in Syria and notes that funds under this heading should continue to be made available to assist the Syrian people. All funds for Syria are subject to the notification procedures of the Committees on Appropriations, pursuant to section 7015(f) of this Act.

*National Ocean Policy.*—The Committee understands that no funds are requested in fiscal year 2013 for the implementation of the National Ocean Policy. The Committee recommendation includes no funding for this purpose. The Committee further notes that any funds obligated in support of this policy are subject to the notification requirements contained in this Act.

*Parliamentary exchanges.*—The Committee recommendation includes \$1,900,000 for the House Democracy Partnership programs, which is the same as the fiscal year 2012 enacted level.

*Polio.*—The Committee supports the budget request under this heading for polio eradication.

*Rule of law.* The Committee believes the rule of law is fundamental to promoting democracy and sustainable development. The Committee notes that the rule of law is strengthened by promoting independent judiciaries, human rights and women’s rights, combating human trafficking and corruption, and increasing public accountability and access to justice. The Committee directs continued support for these programs that advance the rule of law worldwide.

*Trafficking in persons.*—The Committee recommendation includes not less than \$38,207,000 under this heading, International Narcotics Control and Law Enforcement, and Development Assistance for activities to combat trafficking in persons internationally, which is the same as the request. The Committee also includes the request level under Diplomatic and Consular Programs for the State Department Office to Monitor and Combat Trafficking in Persons. The Committee urges the Secretary of State and the Administrator of USAID to continue to incorporate efforts to combat human trafficking and slavery into all aspects of foreign assistance and expects that systems are in place to ensure programs contribute to decreasing vulnerability to, or prevalence of, human trafficking and slavery, consistent with the Trafficking Victims Protection Act of 2000.

The Committee urges the Bureau of Democracy, Human Rights and Labor at the Department of State to continue its efforts to combat human trafficking and exploitative labor practices overseas.

The Committee directs the Ambassador-at-Large for Combating Human Trafficking to include in the next Trafficking in Persons Report a section on best practices in slavery eradication to highlight innovations and partnerships in prevention, protection, and prosecution of the perpetrators of trafficking; and a section to highlight the vulnerability of refugee populations to human trafficking and to make recommendations for the prevention of refugee trafficking.

The Committee expects that the President’s Interagency Task Force on Human Trafficking and the Senior Policy Operating Group should include the Director of the Peace Corps.

*Vulnerable populations.*—The Committee continues to support health, rehabilitation, education, and welfare programs in cooperation with local partners to promote the well-being of vulnerable populations, such as the aged, people with disabilities, children at risk, and refugees.

The Committee includes section 7032, a

new provision on democracy promotion that consolidates and modifies related provisions in current law. The Committee notes that democracy promotion activities in this Act are not subject to prior approval by foreign governments and requires the Secretary of State to report to the Committees on Appropriations on steps taken to ensure compliance with this prohibition in section 7032.

## DEPARTMENT OF STATE

### MIGRATION AND REFUGEE ASSISTANCE

Fiscal year 2012 enacted level <sup>1</sup> .....	\$1,639,100,000
Fiscal year 2013 request .....	1,625,400,000
Committee recommendation .....	1,454,400,000
Change from request .....	– 171,000,000
Change from enacted level .....	– 184,700,000

<sup>1</sup>In addition, the fiscal year 2012 enacted level and the Committee recommendation include funds under this heading in title VIII designated OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The Committee recommendation includes \$1,454,400,000 for Migration and Refugee Assistance, which is \$184,700,000 below the fiscal year 2012 enacted level and \$171,000,000 below the request. Additional funds are provided under title VIII for OCO/GWOT. When combined with the funds appropriated for Emergency Refugee and Migration Assistance Fund, the amount recommended is consistent with the five-year average appropriation for refugee assistance.

*Afghanistan.*—The Committee is concerned with the dramatic rise in conflict-induced displacement in Afghanistan. The Committee urges the Special Representative for Afghanistan and Pakistan to ensure that United States Government strategies to address these issues, such as the Country Assistance Strategy, are incorporated into other existing regional and planned international development strategies.

*Colombian refugees.*—In addition to funds available under this heading, the Committee recommendation includes a transfer of \$7,000,000 from funds available under the Economic Support Fund heading to this heading for assistance to nongovernmental and international organizations that provide assistance to Colombian refugees in neighboring countries. The Committee remains concerned about the unmet humanitarian needs of the growing population of displaced persons from Colombia. The Committee recommends that the Secretary continue to work with UNHCR and other relevant international partners and governments to seek appropriate and durable solutions for Colombian refugees.

*Minority communities in the Middle East.*—Recent events in the Middle East, from the Arab Spring and unrest in Syria to the continued transition in Iraq, have intensified the challenges facing minority communities, including Armenian and other Christian populations, within these areas of conflict, instability, and transition. The Committee urges the Secretary of State to continue support of humanitarian and resettlement assistance for members of these vulnerable communities.

*Protracted refugee situations.*—The Committee supports the initiative of the Department of State's Bureau of Population, Refugees, and Migration on six protracted refugee situations (Afghans in Pakistan, Bhutanese in Nepal, Burmese in Thailand, Croatians and Bosnians in Serbia, Liberians in West Africa and Somalis in

Kenya). The Committee encourages the Department of State to continue its work on the initiative and its collaboration on implementation with USAID, international organizations, UNHCR, and non-governmental organizations.

*Resettlement in Israel.*—The Committee recommendation includes not less than \$15,000,000 for refugees from the former Soviet Union, Eastern Europe, and other refugees resettling in Israel, the same as the request.

*Sudan and South Sudan.*—The Committee urges the Secretary of State to press the governments of Sudan and South Sudan, and the international community, to take all possible measures to avoid the creation of a large stateless population.

*Syrian refugees.*—As the situation in Syria deteriorates, the Committee urges the Department of State to work with neighboring countries to keep borders open to those fleeing violence and to provide access to schools and medical facilities.

The Committee understands that effective expansion of relief efforts in the region associated with the unrest in Syria will require increased partnerships with local, non-governmental organizations and community-based organizations. The Committee encourages the Department of State to further diversify these partnerships.

*Tibetan refugees.*—The Committee urges the Secretary of State to continue, at not less than the fiscal year 2012 level, the allocation of funds in support of Tibetan refugees in Nepal and India. The Committee remains concerned about the plight of Tibetans in Nepal, including new arrivals and the long-staying population. The Committee urges the Secretary of State to press the Government of Nepal to reaffirm its long tradition of permitting Tibetan refugees to safely transit Nepal, and to respect the rights of, and provide legal protections to, Tibetans residing in Nepal. In addition, the Committee encourages the Department of State to continue to engage the Government of Nepal on durable solutions, including enactment of a refugee law, providing status to undocumented Tibetan refugees, and resettlement of Tibetan refugees in the United States.

*United Nations Relief and Works Agency (UNRWA) accountability.*—The Committee recommendation includes a general provision in title VII prohibiting any funds appropriated under this heading from being made available to UNRWA until the Secretary of State determines and reports to the Committees on Appropriations that UNRWA is:

- (1) utilizing Operations Support Officers in the West Bank and Gaza to inspect UNRWA installations and reporting any inappropriate use;
- (2) acting promptly to deal with any staff or beneficiary violation of its own policies (including the policies on neutrality and impartiality of employees) and the legal requirements under section 301(c) of the Foreign Assistance Act of 1961;
- (3) taking necessary and appropriate measures to ensure it is operating in compliance with the conditions of section 301(c) of the Foreign Assistance Act of 1961 and continuing regular reporting to the Department of State on actions it has taken to ensure conformance with such conditions;

(4) taking steps to improve the transparency of all educational materials currently in use in UNRWA-administered schools;

(5) using curriculum materials in UNRWA-supported schools and summer camps designed to promote tolerance, non-violent conflict resolution and human rights;

(6) not engaging in operations with financial institutions or related entities in violation of relevant United States law and is enhancing its transparency and financial due diligence and working to diversify its banking operations in the region; and

(7) in compliance with the United Nations Board of Auditors' biennial audit requirements and is implementing in a timely fashion the Board's recommendations.

The Committee remains concerned about reports of host country textbooks used in UNRWA schools that include inflammatory and inaccurate information about the United States and the State of Israel, anti-Semitic teaching, as well as the glorification of terrorists. The Committee notes that UNRWA schools serve as an alternative to Hamas schools in Gaza and have undertaken efforts to include human rights and non-violent conflict resolution training in their curriculum. The Committee urges the Department of State to continue its work with UNRWA and host governments to ensure educational materials used in UNRWA schools are free of such inflammatory and inaccurate information and to report to the Committees on Appropriations on the additional steps taken to mitigate the use and influence of such material and any recommendations for improving transparency and accuracy of host country textbooks.

*Vulnerable populations.*—The Committee encourages the Department of State to proactively identify and process new groups for resettlement, including Congolese refugees throughout Africa, Chin refugees in Mizoram State and in New Delhi, Colombian, Somali, and Sudanese refugees, as well as other populations of concern.

The Committee recommendation for Peace Corps will provide support for the positive contributions of Americans serving as volunteers throughout the world. The Committee recommendation maintains the ban on use of funds for abortion, and requires a spend plan pursuant to title VII.

The Committee notes that following the enactment of the Kate Puzey Peace Corps Volunteer Protection Act (Public Law 112-57), Peace Corps has codified existing sexual assault risk-reduction and response operations and has begun to implement new measures. The Committee supports Peace Corps' continued efforts to improve the safety and security of volunteers as a top priority.

The Committee continues the requirement that Peace Corps consult with and notify the Committees on Appropriations prior to any decisions to open, close, significantly reduce, or suspend an office or country program. The Committee directs the Director of the Peace Corps to submit a report, not later than 180 days after enactment of this Act and every 180 days thereafter, listing all notified decisions on the status of offices or country programs in the previous six months and the justifications for such decisions.

## MILLENNIUM CHALLENGE CORPORATION

Fiscal year 2012 enacted level .....	\$898,200,000
Fiscal year 2013 request .....	898,200,000
Committee recommendation .....	898,200,000
Change from request .....	0
Change from enacted level .....	0

The Committee recommendation includes \$898,200,000 for the Millennium Challenge Corporation (MCC), which is the same as the fiscal year 2012 enacted level and the request. The Committee directs that not more than \$105,000,000 shall be for administrative expenses and not more than \$100,000 may be for representational expenses, the same as the fiscal year 2012 levels.

The Committee includes prior year language that requires the MCC to only enter into compacts for which it has complete funding available from existing appropriations and notify prior to signing any new country compact or new threshold country program, terminating or suspending any country compact or threshold country program, or commencing negotiations for any new compact or threshold country program.

MCC is directed to consult with the Committees on Appropriations prior to entering into compacts using funds appropriated under this Act.

*Board of Directors.*—The Committee urges the Administration to expedite the filling of current vacancies on the MCC’s Board of Directors, as required by section 604 of the Millennium Challenge Corporation Act of 2003.

*Corruption.*—The Committee directs the MCC to submit a report to the Committees on Appropriations, not later than 90 days after enactment of this Act, which includes an updated assessment of the current practices, procedures, and recommendations for improvements in assessing patterns of corruption in MCC partner countries. This review should include updated recommendations for improvements in the MCC’s ability to identify and track patterns of corruption, the MCC’s process for determining the actions necessary to inhibit corruption, and the process to determine if the level of corruption warrants termination or suspension of the MCC compact.

*Investment funds.*—The Committee remains concerned about the use of appropriated funds to establish private equity funds, investment funds, and development funds. As in prior years, the Committee directs the Chief Executive Officer (CEO) of the MCC to require that such funds be audited annually in accordance with generally accepted auditing standards by independent certified public accountants.

Additionally, the Committee directs the CEO of the MCC to provide an annual written report to the Committees on Appropriations, not later than 120 days after enactment of this Act, that includes the following information for each fund: the identity, selection process, and professional background of current and past managers; the fees and compensation currently provided to senior management; the level of MCC financing provided at the end of the previous fiscal year; a comprehensive and detailed description of the fund’s operations, activities, financial condition, and accomplishments for the preceding fiscal year; and the audit plan for each fund.

*MCC mandate.*—The Committee expects that the mandate of the MCC to increase economic growth and reduce poverty will not be diluted in new compacts that are being negotiated. The Committee expects that projects funded with MCC compact funds will display compelling economic rates of return (ERR). Therefore, the Committee directs the CEO of the MCC to include the corresponding ERR estimated for each line item funded in the compact in the congressional notifications for new compacts.

*Reporting requirements.*—In the fiscal year 2013 operating plan transmitted to the Committees on Appropriations, as required by title VII, the CEO of the MCC is directed to include the following on a country-by-country basis on the funds appropriated under this heading: the status of negotiations and the approximate range of value of proposed compacts; a summary of compacts in implementation, including the projected expenditure and disbursement of compact funds during fiscal year 2013 and subsequent fiscal years as determined by the country compact; a summary of threshold country programs in implementation and development, including the approximate range of value of the threshold country agreements; major programmatic changes to existing compacts funded by this Act or prior acts; and the use of administrative funds. ## TITLE IV—INTERNATIONAL SECURITY ASSISTANCE

## DEPARTMENT OF STATE

## INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT

Fiscal year 2012 enacted level <sup>1</sup> .....	\$1,061,100,000
Fiscal year 2013 request .....	1,456,502,000
Committee recommendation .....	1,061,100,000
Change from request .....	– 395,402,000
Change from enacted level .....	0

<sup>1</sup>In addition, the fiscal year 2012 enacted level, the fiscal year 2013 request, and the Committee recommendation include funds under this heading in title VIII designated OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The Committee recommendation includes \$1,061,100,000 for International Narcotics Control and Law Enforcement (INCLE), which is the same as the fiscal year 2012 enacted level and \$395,402,000 below the request. Additional funds are provided under title VIII for OCO/GWOT.

The Committee includes assistance under this heading for countries previously included under Assistance for Europe, Eurasia, and Central Asia (AEECA).

The Committee has not included the requested provision that would allow funds previously appropriated to the Andean region under the Andean Counterdrug Programs and Andean Counterdrug Initiative headings to be reprogrammed without regard to geographic or purpose limitations. The Committee intends that funds previously appropriated to the Andean region shall be used within that region.

The Committee recommendation continues language that requires the Secretary of State to provide to the Committees on Appropriations, not later than 45 days after enactment of this Act, and prior to the initial obligation of funds, a report on the proposed uses of all funds on a country-by-country basis for each proposed program, project, or activity. The Committee notes that this report

does not meet the notification requirements under section 7015, which requires 15-day advance notice of programs not justified or in excess of the budget justification materials provided to Congress. However, this report should serve as a baseline spend plan for the fiscal year. The Committee expects the report to contain at least the level of detail provided in the fiscal year 2010 INCLE 45-day country-by-country report.

The Committee notes that under extenuating circumstances, the Department of State must exercise authority that allows funds to be spent “notwithstanding any other provision of law” per section 481(a)(4) of the Foreign Assistance Act of 1961. While the Committee understands the need for the Department to exercise this authority, the Committee strongly encourages its judicious use and directs the Secretary of State to notify the Committees on Appropriations in writing within five days each time such authority is used, and provide a justification for such action.

#### *Global Programs*

*Demand reduction.*—The Committee supports the budget request for demand reduction programs and expects that these funds will continue to provide positive outcomes for neglected populations, such as women and children, and mobilize community capacity to deal with drugs and gangs in countries around the world.

*Human rights.*—The Committee expects the Department of State to continue to ensure that training provided through funds made available under this heading include a human rights component and that all existing United States laws regarding human rights are applied.

*Judicial reform.*—The Committee notes that fair and transparent justice systems are critical components to improve the rule of law and the administration of justice particularly in countries confronting organized crime and drug trafficking. The Committee directs that funds be made available to support programs that strengthen and promote independent and effective judiciaries to advance the rule of law worldwide.

*Trafficking in persons.*—The Committee recommendation supports the request of \$24,786,000 in INCLE funding for activities to prevent trafficking in persons. The Committee recommendation also provides funds under Diplomatic and Consular Programs, Economic Support Fund, and Development Assistance for trafficking programs.

#### *Country and Regional Programs*

*Afghanistan, Pakistan, and Iraq.*—The Committee recommendation includes additional funds for the front-line states of Afghanistan, Pakistan, and Iraq under title VIII of this Act.

*Bolivia.*—The Committee remains concerned with the Government of Bolivia’s commitment to combat transnational crime and support interdiction efforts. The Committee recommendation includes language carried in the prior year requiring that the Secretary of State determine and report that providing assistance is in the national security interest.

*Colombia.*—The Committee recommendation includes \$142,000,000 which is the same as the request, for rule of law, interdiction, and eradication activities in Colombia. The Committee

continues to recognize the strategic importance of Colombia, and acknowledges the successes made and the measurable improvements achieved in the everyday lives of the Colombian people that have resulted over the last decade.

In addition to funds provided in the previous paragraph, the Committee recommends \$18,600,000 to support the efforts of the Government of Colombia to provide training and technical assistance to partners in the region and around the world. The Committee encourages the Department of State to work with the Government of Colombia to leverage these activities to best address counternarcotics and law enforcement challenges worldwide.

The Committee continues to support aerial eradication efforts in Colombia and intends that the Department of State will continue its current practices to: 1) investigate and evaluate complaints to health or licit crops and provide fair compensation for meritorious claims; 2) support programs that provide alternative sources of income for small-acreage growers and communities whose illicit crops are targeted in aerial eradication programs; and 3) only conduct aerial eradication programs in national parks and reserves if there are no other effective alternatives and efforts, and if such programs are done in a manner consistent with Colombian law.

The Committee commends the Government of Colombia for its efforts to bring the government into ungoverned territories and supports programs that combine military security and civilian development strategies. The Committee views this as an innovative approach, and notes that success hinges on the full participation of civilian government institutions, inter-agency coordination, strict respect for human rights, and the inclusion of local populations.

The Committee encourages a continued focus on justice and rule of law activities, including efforts to address human rights abuses within the Colombian Armed Forces, and provides not less than the requested amount for these activities. The Committee directs the Secretary of State to report, not later than 45 days after the enactment of this Act, on the proposed uses of funding for Colombia's judicial agencies. The report should include how assistance is designed to reduce impunity and protect due process, and include any associated benchmarks that have been established for the offices of the Colombian Attorney General, Inspector General, and Ombudsman. The Committee encourages the Department of State to support the Attorney General's Human Rights Unit to strengthen the investigative capacity to address sexual violence and to establish a national registry of sexual violence cases.

In section 7045, the Committee directs the Secretary of State to submit a report to the Committees on Appropriations, not later than 60 days after enactment of this Act, on the efforts the Colombian Armed Forces are taking to address human rights. The report shall include steps taken to: 1) suspend members who have been credibly alleged to have violated human rights, or to have aided, abetted or benefitted from paramilitary organizations or other illegal armed groups; 2) promptly refer these cases to civilian jurisdiction; 3) cooperate fully with civilian prosecutors and judicial authorities; 4) sever links with and dismantle paramilitary organizations or other illegal armed groups; 5) respect the rights of human rights defenders, journalists, trade unionists, and other social activists, and the rights and territory of indigenous and Afro-Colombian

communities; and 6) implement procedures to distinguish between civilians and combatants in their operations. The Committee directs the Secretary of State to consult with Colombian and international human rights organizations not less than 30 days prior to submitting this report.

*Guatemala.*—The Committee directs that funds should be made available for the International Commission against Impunity in Guatemala (CICIG). The Committee urges the Department of State to continue to cooperate with the CICIG and encourages all parties in Guatemala to fully comply with the CICIG's recommendations.

*Liberia.*—The Committee recommendation includes \$17,000,000, which is the same as the fiscal year 2012 level for assistance for Liberia. The Committee supports a holistic approach to the Liberian justice sector with enhanced focus on areas such as immigration, corrections, parole and plea bargaining, investigative capacity, prosecution capability, and an intermediate criminal justice system.

*Mexico.*—The Committee recommendation includes \$248,500,000, which is the same as the fiscal year 2012 level for assistance for Mexico to support its war against organized crime and drug-trafficking along the United States-Mexico border. The Committee notes the strong commitment of the Government of Mexico to these efforts. The Committee intends that the resources provided will assist the Government of Mexico to strengthen civilian and judicial institutions, anti-corruption efforts, and rule of law activities to foster long-term reform objectives.

The Committee supports close and sustained coordination in law enforcement efforts and intelligence-sharing between the United States and Mexico to combat the activities of drug trafficking organizations along our southern border. The Committee continues to direct the Department of State to work with all appropriate federal, state, and local entities to create a comprehensive, joint border security strategy to address violence associated with drug trafficking, gun-running, illegal alien smuggling, violence, and kidnapping along and across the international border between the United States and Mexico.

The Committee expects that equipment and training funded in this Act and in prior acts will be expedited to enhance the ability of federal, state, and local entities to conduct law enforcement, counternarcotics, and counterterrorism operations throughout Mexico, particularly where drug trafficking organizations are challenging the Mexican authorities for control of major cities, including those on the United States-Mexico border. The Committee continues to be concerned with the delivery of assistance to Mexico and directs the Department of State, in consultation with the Departments of Defense, Homeland Security and Justice, to provide a report to the Committees on Appropriations, not later than 45 days after enactment of this Act, describing the implementation of assistance for Mexico since fiscal year 2008 and to use all appropriate means necessary to ensure the prompt delivery of equipment and training. The Committee further directs these agencies, and other relevant United States Government agencies, to provide in such report an assessment of the transnational criminal organizations operating in Mexico, including an assessment of the income-generating activities of these organizations and recommendations

on how to combat the operations, financial networks, and money laundering techniques of such organizations. This report, or a portion thereof, may be submitted in classified form if necessary.

The Committees directs the Secretary of State to submit a report to the Committees on Appropriations, not later than 60 days after enactment of this Act, on the efforts of the Government of Mexico to investigate and prosecute in the civilian justice system, in accordance with Mexican and international law, military and police personnel who are credibly alleged to have violated human rights; to enforce prohibitions on the use of testimony obtained through torture; and the efforts of the Mexican military and police to cooperate with civilian judicial authorities in such cases.

*Partnership for Regional East Africa Counterterrorism (PRACT).*—The Committee supports the President's request for PRACT.

*Trans-Sahara Counter-Terrorism Partnership (TSTCP).*—The Committee recommendation includes \$4,500,000 for TSTCP, which is the same as the fiscal year 2012 enacted level.

*Western Hemisphere Regional*

*Central America Regional Security Initiative (CARSI).*—The Committee strongly supports efforts to combat the corrosive effects of drug trafficking, organized crime, and gangs in Central America and includes \$70,000,000 for these purposes, which is an increase of \$10,000,000 above the President's request. CARSI funding will help countries enhance their law enforcement operations and reform the justice sector, thereby making them key partners in the fight against transnational criminal networks. The Committee believes that cooperation within the region is critical to ensure the security of these countries and the United States.

The Committee directs the Department of State to submit a report, not later than 45 days after enactment of this Act, on the activities that were conducted with previous appropriations and the achievements associated with those funds, as well as activities that will be funded in fiscal year 2013 and the goals that are expected to be reached.

*Caribbean Basin Security Initiative (CBSI).*—The Committee also strongly supports CBSI in order to combat organized crime and drug-related violence and includes \$30,000,000, which is the same as the fiscal year 2012 level. The Committee believes that strong integration of similar programs in Mexico, Colombia, and the countries of Central America will contribute to enhanced security in the region and the United States.

The Committee directs the Department of State to submit a report, not later than 45 days after enactment of this Act, on the activities that were conducted with previous appropriations and the achievements associated with those funds, as well as activities that will be funded in fiscal year 2013 and the goals that are expected to be reached.

Change from enacted level .....	0

<sup>1</sup>In addition, the fiscal year 2012 enacted level and the Committee recommendation include funds under this heading in title VIII designated OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The Committee recommendation includes \$590,113,000 for Nonproliferation, Anti-Terrorism, Demining and Related Programs (NADR), which is the same as the fiscal year 2012 enacted level and \$45,555,000 below the request. Additional funds are provided under title VIII for OCO/GWOT.

The Committee directs the Secretary of State to notify the Committees on Appropriations in writing within five days of exercising authority allowing funds made available under this heading to be spent “notwithstanding any other provision of law”, and such notification shall include a justification of such activities.

The Committee continues authority contained in section 301 of the Foreign Assistance Act of 1961, and intends that this authority only apply to voluntary contributions to the International Atomic Energy Agency and for a United States contribution to the Comprehensive Nuclear Test Ban Treaty Preparatory Commission. The Committee expects to be consulted prior to any other uses of this authority.

The Committee notes that language carried in section 7076 requires the submission of a spend plan for certain countries and programs not later than 30 days after enactment of this Act. The Committee requests that the spend plan integrate the funds appropriated under this heading and in title VIII of this Act for OCO/GWOT where appropriate, and the OCO/GWOT amounts should be separately identified in the integrated plan.

The Committee recommendation does not include language carried in the prior year regarding public-private partnerships because the Committee understands that the State Department has not relied on this authority in recent years. The Committee recommendation modifies language carried in the prior year regarding administrative expenses and caps the amount based on historical spending levels.

*Nonproliferation and Disarmament Fund (NDF).*—The Committee continues to support the NDF, and the recommendation includes \$30,000,000 for such activities. The Committee continues prior year language requiring prior consultation on all NDF activities. The Committee emphasizes that nonproliferation programs of the Department of State and other Federal agencies are critical to protect the United States, and the Committee urges close coordination among all agencies involved in nonproliferation activities.

*International Atomic Energy Agency (IAEA).*—The Committee is concerned by the Government Accountability Office’s (GAO) findings on the IAEA’s Technical Cooperation Program’s provision of assistance to state sponsors of terrorism, such as Cuba, Syria, Iran, and Sudan. The Committee directs that such assistance should only be provided when necessary to advance the goals of the United States concerning promotion of peaceful nuclear activities and nu-

clear non-proliferation. The Committee directs that prior to the obligation of funds, the Secretary of State shall report to the Committees on Appropriations on steps taken to address the recommendations in the 2009 GAO report on this topic.

*Comprehensive Nuclear Test-Ban Treaty.*—The Committee directs that any funds provided to support the International Monitoring System (IMS) related to the Comprehensive Nuclear Test-Ban Treaty, including efforts to enhance the verification regime, shall be subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations. The Committee directs the Department of State to submit a report, not later than 30 days after enactment of this Act, on all IMS projects implemented by United States Government agencies in fiscal years 2008 through 2012.

*Middle East Nuclear Free Zone.*—The Committee notes with great concern Iran’s continued pursuit of a nuclear weapons capability and views such efforts as a serious threat to the region. The Committee understands that preparatory steps are underway for a regional conference to discuss a Middle East zone free of weapons of mass destruction and systems for their delivery, as referenced in the 2010 Non-Proliferation Treaty Review Conference final document. The Committee expects the Administration to continue to insist on its publicly stated policies for the establishment of such a conference.

*Terrorist interdiction programs.*—The Committee supports the Terrorist Interdiction Program to allow immigration and border control officials in foreign countries to identify suspect persons.

*Counterterrorism financing.*—The Committee notes that strengthening banking services is an important component of a comprehensive approach to counter terrorist financing and continues to support efforts of the Departments of State and other Federal agencies in assisting foreign countries to detect, disrupt, and dismantle terrorist financial networks.

*Countering Violent Extremism (CVE).*—The Committee does not include the requested amount for the CVE program in the NADR account but notes that funds may be provided for such purposes from the Economic Support Fund account.

*Demining and mine victim assistance.*—The Committee recognizes the importance of mine removal, mine victim assistance, and the proper storage and disposition of small arms/light weapons and notes the significant contributions made to date in helping the countries of southeastern Europe to become mine-safe. The Committee further encourages the Department of State to expand its work to other regions.

*Unexploded ordnance destruction.*—The Committee supports continued efforts related to unexploded ordnance destruction, particularly in Laos.

PEACEKEEPING OPERATIONS

Fiscal year 2012 enacted level <sup>1</sup> .....	\$302,818,000
Fiscal year 2013 request .....	249,100,000
Committee recommendation .....	345,000,000
Change from request .....	+95,900,000
Change from enacted level .....	+42,182,000

<sup>1</sup>In addition, the fiscal year 2012 enacted level includes funds under this heading in title VIII designated OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The Committee recommendation includes \$345,000,000 for Peacekeeping Operations, which is \$42,182,000 above the fiscal year 2012 enacted level and \$95,900,000 above the request. The Committee provides funding for the UN logistics and support package for the African Union Mission in Somalia under this heading, instead of under Contributions to International Peacekeeping Activities.

The Committee expects that notifications submitted to the Committees on Appropriations will identify when funds are being provided notwithstanding any other provision of law, and upon which authority the Department is relying.

*Africa.*—The Committee supports the President’s request for the Democratic Republic of the Congo, Liberia, South Sudan, and the Partnership for Regional East Africa Counterterrorism. The Committee does not support the proposed decrease in funding for the Trans-Sahara Counterterrorism Partnership.

*Lord’s Resistance Army (LRA).*—The Committee supports the President’s request to assist security forces to counter the LRA and includes section 7043(e) requiring that funds be provided to areas affected by the LRA and a report on implementation of the Administration’s counter-LRA strategy.

*Somalia.*—The Committee recommendation includes language allowing funds under this heading to be used to pay assessed expenses of international peacekeeping activities for logistical support to the African Union Mission in Somalia. Should additional resources be required, the Committee includes authority to transfer additional funds from “Contributions for International Peacekeeping Activities” to this heading, subject to prior consultation with the Committees on Appropriations.

*Near East.*—The Committee recommendation includes not less than \$26,000,000 for the Multinational Force and Observers Mission (MFO) in the Sinai. The Committee supports the work of the MFO and notes that if additional resources are needed for force protection enhancements during fiscal year 2013, the Committee expects the Department of State to submit a notification, pursuant to section 7015 of this Act.

*Child soldiers.*—The Committee recommendation includes language that funds should not be used to support military training or operations that include child soldiers.

*Police.*—The Committee does not include the request under this heading for limited notwithstanding of section 660 of the Foreign Assistance Act of 1961 for capacity building efforts of formed police units/gendarmes to participate in peacekeeping operations. The Committee notes that funds are requested for similar purposes under International Narcotics Control and Law Enforcement.

## FUNDS APPROPRIATED TO THE PRESIDENT

### INTERNATIONAL MILITARY EDUCATION AND TRAINING

Fiscal year 2012 enacted level .....	\$105,788,000
Fiscal year 2013 request .....	102,643,000
Committee recommendation .....	102,643,000
Change from request .....	0
Change from enacted level .....	–3,145,000

The Committee recommendation includes \$102,643,000 for International Military Education and Training (IMET), which is \$3,145,000 below the fiscal year 2012 enacted level and the same as the request.

The Committee notes that IMET and Expanded IMET programs are a valuable part of United States security assistance. The Committee recognizes that in addition to providing professional training and education, IMET also exposes foreign students to American democratic values, particularly respect for civilian control of the military and the government, and for internationally recognized standards of individual and human rights. IMET serves as an effective tool to strengthen military alliances and international coalitions critical to United States national security.

*Country-by-country report.*—The Committee recommendation retains language carried in the prior year requiring a detailed description of proposed activities for each country funded in this account. The regular notification procedures of the Committees on Appropriations remain in effect, requiring that the Committee be notified 15 days in advance of obligation for any funds not justified, or in excess of amounts justified, in the Congressional budget justification.

*Armenia and Azerbaijan.*—The Committee recommendation continues the policy of parity in military assistance provided to Armenia and Azerbaijan.

*Child soldiers.*—The Committee notes that no funds should be provided for countries found to be in violation of the Child Soldiers Prevention Act during fiscal year 2013 (Public Law 110–457).

#### FOREIGN MILITARY FINANCING PROGRAM

Fiscal year 2012 enacted level <sup>1</sup> .....	\$5,210,000,000
Fiscal year 2013 request .....	5,472,320,000
Committee recommendation .....	5,210,000,000
Change from request .....	–262,320,000
Change from enacted level .....	0

<sup>1</sup>In addition, the fiscal year 2012 enacted level, the fiscal year 2013 request, and the Committee recommendation include funds under this heading in title VIII designated OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The Committee recommendation includes \$5,210,000,000 for Foreign Military Financing Program (FMF), which is the same as the fiscal year 2012 enacted level and \$262,320,000 below the request. Additional funds are provided under title VIII for OCO/GWOT.

The Committee recognizes that FMF is a key component to building partner nation capacity and helping allies defend themselves. FMF provides grants for the acquisition of United States defense equipment, services, and training. The Committee notes that such assistance enables key allies and friendly nations to improve defensive capabilities and fosters bilateral military relationships with the United States and interoperability with United States forces.

The Committee recommendation continues prior year language allowing the Secretary of State the ability to expedite the procurement of defense articles or services for foreign security forces, following consultation with, and notification of, the Committees on Appropriations.

*Budget request.*—The Committee directs that the classified country-by-country budget request for this account should be submitted

for fiscal year 2014 concurrent with the submission of the President's fiscal year 2014 budget request.

*Armenia and Azerbaijan.*—The Committee recommendation continues the policy of parity in military assistance provided to Armenia and Azerbaijan, and includes the requested level for each country.

*Bahrain.*—The Committee notes the importance of Bahrain to the United States regional security strategy. The Committee expects the Secretary of State to report to the Committees on Appropriations, not less than 60 days after enactment of this Act, on the steps taken by the Government of Bahrain to protect freedom of expression and association, and due process of law.

*Colombia.*—The Committee recommendation includes \$40,000,000 for assistance for Colombia and supports funds being used for maritime interdiction and riverine operations.

*Egypt.*—The Committee recommendation includes \$1,300,000,000 in assistance for Egypt, which is the same as the fiscal year 2012 enacted level and the request. The Committee recognizes that continued military-to-military cooperation between the United States and Egypt is critical during this period of transition. The Committee notes, however, that changes within Egypt over the last year necessitate additional oversight of these funds by the Congress. For that reason, the Committee includes requirements in sections 7042 and 7015 of this Act that must be met prior to the obligation of funds for Egypt. The Committee notes that section 7042(a)(1)(C) contains new language requiring the Secretary of State to consult the Committees on Appropriations prior to any decision to waive the requirements in section 7042(a)(1)(B); and section 7015(f) contains new language requiring that the Committees on Appropriations must be notified 15 days in advance of the obligation of funds for Egypt.

*Guatemala.*—The Committee supports the budget request for Guatemala and notes that no funds are requested for the Guatemalan Army, except for support for the Army Corps of Engineers and for e-IMET courses. The Committee expects that if the decision is made to provide assistance to the Guatemalan Army during fiscal year 2013 other than in the manner previously justified to the Congress, a notification will be submitted pursuant to section 7015 of this Act. The Committee further expects that any such notification will be accompanied by a detailed justification describing steps made to address the issues described under this heading in the joint explanatory statement accompanying the Department of State, Foreign Operations, and Related Agencies Appropriations Act (Public Law 112-74).

*Honduras.*—The Committee recommendation includes language, modified from the prior year, in section 7045, withholding funds for Honduras until certain conditions are met.

*Israel.*—The Committee recommendation provides \$3,100,000,000 in grants for military assistance to Israel, which is \$25,000,000 above the fiscal year 2012 enacted level and the same as the request. The Committee notes that of the funds provided for assistance for Israel, not less than \$815,300,000 is available for offshore procurement of military equipment. The Committee continues prior year language that funds shall be made available within 30 days of enactment of this Act.

The Committee notes that funding supports the \$30,000,000,000 ten-year Memorandum of Understanding (MOU) signed on August 16, 2007, between the Department of State and Israel's Ministry of Foreign Affairs, which established the framework for United States military assistance to Israel and calls for \$3,100,000,000 in fiscal year 2013. This MOU reflects the unshakable commitment of the United States to Israel's security and provides for an increased level of military assistance to help Israel maintain its technological edge in light of the increased threats it faces in the region. The Committee recognizes that the United States-Israel partnership is integral to United States national security interests and supports this framework agreement as a continuation of a valuable strategic relationship.

*Jordan.*—The Committee recommendation includes \$300,000,000 for assistance for Jordan, which is the same as the request. The Committee notes that the Kingdom of Jordan continues to play a critical role in advancing peace and stability in the region.

*Lebanon.*—The Committee recommendation includes language in section 7042 requiring that certain conditions be met prior to the obligation of funds for Lebanon. The Committee notes that in addition to placing conditions on assistance, language in section 7042 requires: 1) a detailed spend plan, 2) notifications to include specific reference to lethal military equipment; and 3) a report on actions taken to ensure that equipment provided to the Lebanese Armed Forces (LAF) is used only for intended purposes. The Committee intends that assistance provided to the LAF will not be used against Israel, and such assistance will not affect Israel's qualitative military edge in the region. The Committee further directs the Secretary of State to submit a report to the Committees on Appropriations, not later than 90 days after enactment of this Act, in classified form if necessary, on the performance of the LAF, including an assessment of the operational capabilities of such forces and how the training, curriculum, and equipment provided by the United States contributes to those capabilities.

*Libya.*—The Committee recommendation includes language in section 7042 requiring that certain conditions be met prior to the obligation of funds for Libya. In addition, all funds are subject to the regular notification procedures of the Committees on Appropriations.

*Mexico.*—The Committee recommendation includes not less than \$7,000,000 for assistance for Mexico, which is the same as the request.

*Morocco.*—The Committee supports not less than \$8,000,000 for Morocco, which is the same as the request. The Committee supports making additional funds available for Morocco from funds described under Middle East Response under this heading, subject to the regular notification procedures of the Committees on Appropriations.

*Oman.*—The Committee supports not less than \$8,000,000 for Oman, which is the same as the request. The Committee supports making additional funds available for Oman from funds described under Middle East Response under this heading, subject to the regular notification procedures of the Committees on Appropriations.

*Pakistan.*—The Committee recommendation includes language in section 7046 requiring that certain conditions be met prior to the

obligation of assistance for Pakistan. Funds may also be made available under title VIII of this Act for assistance to Pakistan.

*Philippines.*—The Committee recommendation includes not less than \$13,500,000 for the Philippines, which is the same as the request, and notes that additional funds may be made available pursuant to section 7015 of this Act. The Committee encourages further enhancement of the strategic relationship between the United States and the Philippines, including the pursuit of mutual interests such as freedom of navigation and regional cooperation on maritime security.

*Sri Lanka.*—Prior to the obligation of funds for Sri Lanka, the Secretary of State shall consult with the Committees on Appropriations on steps taken by the Government of Sri Lanka to address concerns raised in section 7046(d) of the Department of State, Foreign Operations, and Related Agencies Appropriations Act, 2012 (Public Law 112–74).

*Tunisia.*—The Committee recommendation includes not less than \$15,000,000 for Tunisia, which is the same as the request. The Committee supports making additional funds available for Tunisia from funds described under Middle East Response under this heading, subject to the regular notification procedures of the Committees on Appropriations.

*Yemen.*—The Committee recommendation includes language in section 7042 requiring that certain conditions be met prior to the obligation of assistance to Yemen.

*Child soldiers.*—The Committee notes that no funds should be provided for countries found to be in violation of the Child Soldiers Prevention Act during fiscal year 2013 (Public Law 110–457).

*Middle East Response.*—The Committee recommendation includes \$25,000,000 to promote regional peace and security, as well as stabilization efforts, in the Middle East and North Africa. The Committee directs that a spend plan be provided to the Committees on Appropriations prior to the obligation of funds for these purposes.

*Military assistance and sales.*—The Committee remains concerned about the military modernization of the People’s Republic of China (PRC) and the increasing frequency of aggressive claims in territorial disputes, including on the seas and in cyberspace. In response, regional neighbors are reviewing defense postures and updating their military hardware. The Committee encourages the Administration to continue to engage with allies in the region, such as Taiwan, the Philippines, South Korea, and Japan, on the political, economic, and military implications of the strategic rise of the PRC, including through military assistance and sales programs.

## TITLE V—MULTILATERAL ASSISTANCE

### FUNDS APPROPRIATED TO THE PRESIDENT

#### INTERNATIONAL ORGANIZATIONS AND PROGRAMS

Fiscal year 2012 enacted level .....	\$348,705,000
Fiscal year 2013 request .....	327,300,000
Committee recommendation .....	276,500,000
Change from request .....	– 50,800,000
Change from enacted level .....	– 72,205,000

The Committee recommendation includes \$276,500,000 for International Organizations and Programs, which is \$72,205,000 below the fiscal year 2012 enacted level and \$50,800,000 below the request. The recommendation includes no funds for the United Nations Population Fund (UNFPA) and the Intergovernmental Panel on Climate Change/UN Framework Convention on Climate Change. The Committee recommendation assumes no funds are provided for Multilateral Action Initiatives.

*United Nations Educational, Scientific, and Cultural Organization (UNESCO).*—The Committee notes that, due to the application of Public Law 101–246 and Public Law 103–236, United States contributions are currently being withheld from UNESCO. The funding recommendation reflects the deduction of the amounts requested for voluntary contributions to UNESCO in fiscal year 2013.

*United Nations Children’s Fund (UNICEF).*—The Committee recommendation includes \$131,755,000 for UNICEF, the same as the fiscal year 2012 level.

*Transparency and accountability of United Nations agencies.*—The Committee recommendation includes language, modified from the prior year, that requires that financial and performance audits of United Nations agencies and international organizations be fully available to the United States Government and posted on the agencies’ web sites. The Secretary of State may waive the requirement on an agency by agency basis to avert a humanitarian crisis. In addition to the report required, the Committee directs the Department of State to consult with the Committees on Appropriations regularly on the status and progress of each agency.

*United Nations Women’s Fund.*—The Committee supports UN Women’s mandate to streamline UN efforts to address the needs of women and girls globally and create accountability for the effectiveness of these initiatives.

#### INTERNATIONAL FINANCIAL INSTITUTIONS

The Committee notes that the following accounts received appropriations in fiscal year 2012, were not requested in fiscal year 2013, and no funds are provided in this Act: Contribution to the International Development Association—Multilateral Debt Relief Initiative, Inter-American Investment Corporation, and Contribution to the Enterprise for the Americas Multilateral Investment Fund, Contribution to the African Development Fund—Multilateral Debt Relief Initiative.

#### *International Monetary Fund (IMF)*

*IMF bailouts of European nations.*—The Committee is troubled that the IMF continues to agree to bailout packages that are unprecedented in size relative to a foreign country’s quota contribution to the IMF. The Committee expresses its concern that IMF agreements have been accepted by its European members as an alternative means of fiscal discipline rather than abiding by prior European Union treaty obligations.

*Internal IMF budget.*—In the 111th Congress, the Supplemental Appropriations Act, 2009 (Public Law 111–32) authorized the IMF to sell 12,965,649 ounces of its gold to augment the IMF’s internal operating budget. The Committee recognizes that the gold sales are now complete and over \$10,000,000,000 in profits were generated;

however, the need for such budget augmentation has been eliminated given the increase in internal revenue from surcharges on increased lending to nations in distress. The Committee to date has not been consulted on the use of the proceeds of these gold sales by the IMF. The Committee recommendation includes a new provision in section 7071 that directs the Secretary of the Treasury to report to the Committees on Appropriations, not later than 45 days after enactment of this Act, with a description and estimate of IMF surcharges on outstanding and new loans by year; the IMF's internal use of funds derived from such surcharges; and the IMF's internal budget for the calendar years 2010, 2011, and 2012.

*General Capital Increases (GCIs) of the Multilateral Development Banks*

*Certification on reforms.*—The Committee has included section 7078, similar to the enacted fiscal year 2012 Act, which requires the Secretary of the Treasury to certify and report to the Committees on Appropriations that a number of reforms have been implemented before funds may be disbursed for the GCIs to the multilateral development banks. The Committee expects that this report will include detailed descriptions on efforts taken to implement the agreed upon reforms, whistleblower protections for employees, and transparency and accountability of the multilateral development banks' programs.

*Concerns About the World Bank Group*

*Budget support.*—The Committee is concerned with the increased use of budget support, or “Development Policy Loans” in World Bank lending. Such budget support made up 47 percent of World Bank lending in fiscal year 2010, a drastically higher level than in past years due to the financial crisis. The Committee directs the Secretary of Treasury to keep the Committees on Appropriations updated on efforts to lessen the use of budget support to its historical levels of under 30 percent.

*International Finance Corporation.*—The World Bank's private lending arm, the International Finance Corporation, provides commercial financing in support of private investments in developing countries including the arrangement of loan syndications for large investment banks and private equity funds. The Committee directs the Secretary of the Treasury to continue to work to increase the transparency of the IFC's transactions and notes the inclusion of language in title VII of this Act.

*North American Development Bank (NADBank)*

The Committee is aware that the NADBank expanded the eligible portfolio of loans that it can undertake in December 2011. As part of this change, the NADBank created the Community Action Plan, which will provide small grants to communities along the United States-Mexico border. The Committee directs the Secretary of the Treasury to report to the Committee, not later than 60 days after enactment of this Act, a detailed list of all grants made by the NADBank under this new facility, the level of retained earnings or other resources used to support the program, and new loans made under the expanded eligibility criteria for calendar year 2012.

The Committee recommendation includes an additional \$2,293,259,000 for Economic Support Fund, which is \$468,203,000 below the fiscal year 2012 enacted level and \$1,255,388,000 above the request. The full amount is designated for OCO/GWOT pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 for support of contingency operations in Afghanistan, Pakistan, and Iraq.

*Iraq.*—The Committee provides funds to strengthen democracy and civil society, build government capacity, and expand anti-corruption efforts. The Committee urges the Department of State and USAID to continue efforts to encourage the incorporation of women in stabilizing Iraq and creating its government institutions. The

Committee further expects funds to be provided to support an Iraqi women's democracy initiative.

The Committee continues to recognize the importance of providing targeted assistance to the ethno-religious minorities in Iraq to ensure their survival. The Committee continues the reporting requirement from the previous year, directs the Secretary of State to submit a report to the Committees on Appropriations, not later than 60 days after enactment of this Act, detailing a comprehensive United States Government policy to address the plight of these communities, including those living in the Nineveh Plains. The policy should be informed in part by both the recommendations of the diaspora community in the United States and the struggling communities within Iraq and should be forward-looking, rather than a summary of previously funded projects and initiatives.

Further, the Committee directs the Department of State to establish a long-term comprehensive plan to provide durable solutions for internally displaced Iraqis and Iraqi refugees. The plan should also focus on the large number of Iraqi refugees presently residing in Syria, and should explore possible alternatives in light of the escalating violence and instability in Syria.

*Afghanistan.*—Funds appropriated under this heading that are available for Afghanistan are subject to the terms and conditions of section 7046(a). The Committee notes that the political, economic, and security situation in Afghanistan necessitates that conditions on assistance from prior years on corruption and the rights of women and girls are continued. The bill includes new requirements to address plans for the transition and security for implementing partners.

The Committee continues restrictions on assistance included in fiscal years 2011 and 2012 to address corruption. The Committee expects USAID's development of the Accountable Assistance for Afghanistan (A<sup>3</sup>) initiative to be fully implemented for fiscal year 2013 and the Administrator of USAID to keep the Committee informed on implementation of the initiative and other efforts to enhance oversight and minimize waste, fraud, and abuse.

The Committee directs that programs continue to focus on women and girls, including training and equipment to improve the capacity of women-led Afghan nongovernmental organizations, and support for the activities of such organizations. The Committee further intends that there will be a continued focus on maternal and child health programs in Afghanistan.

The Committee remains concerned about security for implementing partners that have transitioned from Personal Security Contractors (PSCs) to the Afghan Public Protection Force (APPF) for their protection needs in Afghanistan. The Committee includes new language withholding funds until the Secretary of State certifies that the needed contracts and services are in place.

The Committee remains concerned about providing assistance to Afghanistan directly through the government. The Committee maintains robust restrictions from fiscal year 2012 on direct government-to-government assistance in section 7031 of this Act.

The Committee notes the work of the Afghanistan Reconstruction Trust Fund (ARTF) and its National Solidarity Program in helping to build the capacity of Afghan communities to participate in and

manage their own development projects. The Committee encourages continued support for these programs.

The Committee supports a continued focus on the rule of law and expects USAID to coordinate with the Bureau of Democracy, Human Rights, and Labor at the Department of State for democracy, governance, and rule of law programs in Afghanistan.

Training for the media in Pakistan and Afghanistan is essential to the development of an independent and free media. The Committee recommends continuing funding under the Bureau of Democracy, Human Rights and Labor and USAID for programs and activities that support the development of independent media, including radio, in Pakistan and Afghanistan.

The Committee is unaware of any efforts to resolve concerns raised by the Committee in fiscal year 2012 regarding reports of implementing partners receiving tax bills from the Government of Afghanistan that include United States foreign assistance in addition to funds legitimately identified for revenue collection. The Committee directs the Secretary of State to develop a policy, not later than 180 days after enactment of this Act, in coordination with the Government of Afghanistan, and following consultation with implementing partners, to prohibit illegitimate taxation and collection of United States' foreign assistance. The Committee notes that USAID has prevented this problem by including clauses in contracts and agreements that explicitly restate the prohibition.

The Committee is concerned about the dramatic rise in conflict-induced displacement in Afghanistan and the corresponding increase in humanitarian needs. The Committee urges the Special Representative for Afghanistan and Pakistan to develop a comprehensive inter-agency strategy to address this displacement, including: (1) an assessment of the Government of Afghanistan's capacity to prevent, mitigate, and respond to forced displacement and provide durable solutions for internally displaced Afghans and Afghan refugees; and (2) a coherent plan to strengthen the capacity of the Government of Afghanistan to address the causes and consequences of displacement in Afghanistan.

The Committee supports the concept of a New Silk Road that will lower trade barriers, create jobs, reinforce political stability and regional cooperation between Afghanistan and its neighbors in order to better integrate the Central Asian region. The Committee directs the Special Representative for Afghanistan and Pakistan to provide regular updates on progress on this initiative.

Title VII of the bill requires a spend plan for Afghanistan by program, project, and activity including levels of funding planned as direct government-to-government assistance. The Committee directs that the spend plan shall also include descriptions of expected results and clearly defined metrics for measuring progress or failure.

*Pakistan.*—The Committee recommendation includes a new provision prohibiting funds for Pakistan until the Secretary of State provides a certification pursuant to section 7046(b) of this Act. The Committee directs that projects supported by the Department of State and USAID must demonstrate that they foster economic development and decrease the appeal of extremism. The Committee supports continued focus on the rule of law and expects USAID to coordinate with the Bureau of Democracy, Human Rights, and

Labor at the Department of State for democracy, governance, and rule of law programs in Pakistan. The Committee is concerned about discrimination against minority communities in Pakistan whose ability to practice their faiths is severely constrained by law. The Committee urges the Department of State and USAID to ensure that programs include minority groups and to press the Government of Pakistan to take all necessary steps to end discrimination and to safeguard freedom of religion.

The Committee believes that programs in Pakistan should aim to reduce unemployment, illiteracy, and disenfranchisement among the most impoverished individuals and communities. The Committee supports programs that can provide transparency and accountability of funds and encourage local community engagement to address its own development needs.

The Committee supports continued efforts to interdict precursor materials from Pakistan to Afghanistan that are used to manufacture improvised explosive devices and programs to train border and customs officials in Pakistan and Afghanistan.

The Committee remains concerned about the Administration's goal to channel 50 percent of assistance to Pakistan directly through the government. The Committee includes robust restrictions on providing assistance in this manner in section 7031 of this Act. Title VII of the bill requires a spend plan for Pakistan by program, project, and activity including levels of funding planned as direct government-to-government assistance pursuant to section 7031 of this Act.
