FISCAL YEAR 2027 COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS BILL

The Commerce, Justice, Science, and Related Agencies Appropriations Act provides a total discretionary allocation of \$77.341 billion, which represents a \$670 million decrease compared to the Fiscal Year 2026 enacted level. The defense portion of the allocation is \$7.234 billion, and the non-defense portion of the allocation is \$70.107 billion.

The bill appropriately right-sizes federal agencies while refocusing agency programs and operations on their core missions. Importantly, the bill directs funding to support the fight against fentanyl, provides robust funding for state and local law enforcement, and invests in efforts to counter Communist China – all while safeguarding the constitutional rights of Americans.
