

FISCAL YEAR 2024 COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS BILL

The Commerce, Justice, Science, and Related Agencies appropriations bill provides net new spending of \$58.383 billion for programs under the jurisdiction of the Subcommittee, which is \$23.765 billion below the FY23 enacted level. The bill provides a non-defense discretionary total of \$52.383 billion, which is \$31.964 billion below the FY24 President’s Budget Request and \$23.527 billion below the FY23 enacted level, and a defense discretionary total of \$6.293 billion, which is \$238 million below the FY23 enacted level and \$678.1 million below the FY24 President’s Budget Request.

The bill reins in the Washington bureaucracy by right-sizing agencies and programs and directs that funding to support the fight against fentanyl and efforts to counter the People’s Republic of China. Importantly, the bill utilizes the power of the purse to address the weaponization of the Federal Bureau of Investigation (FBI) and bring an end to the overreach of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF).
