

FISCAL YEAR 2024 INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS BILL

The Interior, Environment, and Related Agencies bill provides new non-defense discretionary spending totaling \$25.417 billion, which is \$13.433 billion (35%) below the Fiscal Year 2023 enacted level and \$21.371 billion below the President’s Budget Request. The bill also rescinds \$9.373 billion in funding provided to the Environmental Protection Agency (EPA), the Presidio Trust, and the Council of Environmental Quality by the Inflation Reduction Act (IRA), bringing the program level to \$34.790 billion (10%) below the FY23 enacted level. Overall, the bill’s allocation is below the FY18 enacted level. The bill fully funds the Payments in Lieu of Taxes (PILT) program and prioritizes funding for Tribes and Wildland Fire Management. In addition, the bill provides a \$2.65 billion fire suppression cap adjustment as authorized. The bill reduces funding for nearly every other appropriation in the bill, including a \$3.962 billion (39%) reduction to the EPA. The bill meets the programmatic needs of the agencies within the Subcommittee’s jurisdiction by reining in spending for low priority programs.
