The Administrator of the Environmental Protection Agency shall base agency policies and actions regarding air emissions from forest biomass including, but not limited to, air emissions from facilities that combust forest biomass for energy, on the principle that forest biomass emissions do not increase overall carbon dioxide accumulations in the atmosphere when USDA Forest Inventory and Analysis data show that forest carbon stocks in the U.S. are stable or increasing on a national scale, or when forest biomass is derived from mill residuals, harvest residuals or forest management activities. Such policies and actions shall not pre-empt existing authorities of States to determine how to utilize biomass as a renewable energy source and shall not inhibit States’ authority to apply the same policies to forest biomass as other renewable fuels in implementing Federal law.

The Administrator of the Environmental Protection Agency shall apply the criteria and procedures in effect as of the date of enactment of this Act for aquifer exemptions under the underground injection control regulatory framework, in a collaborative manner with the States and regulated industries, to promptly review and make decisions on all aquifer exemption applications using the cri-
teria for exempted aquifers set forth in section 146.4 of title 40, Code of Federal Regulations (as in effect on April 1, 2016). The Administrator shall not use substantial pro-
gram revisions for purposes of reviewing and making deci-
sions on aquifer exemption applications involving under-
ground injection authorized by permit, provided the injec-
tion is occurring into aquifers that meet the criteria for an exemption under such section 146.4 and the rec-
ommendations of key State resource agencies are taken in account.

For fiscal year 2017, and notwithstanding section 518(f) of the Federal Water Pollution Control Act (33 U.S.C. 1377(f)), the Administrator is authorized to use the amounts appropriated for any fiscal year under section 319 of the Act to make grants to federally recognized In-

program, project, or activity, to another within
any appropriation funded in this Act.

project to another such project.

(C) An operating plan or any later modi-
fication thereof submitted under subsection (i)
of this section.

(D) Proposed reorganizations even without
a change in funding, including any change to
the organization table presented in the budget
justification.

(2) “Program”, “project”, and “activity” con-
stitute the delineation below the appropriation ac-
count level of any agency funded by this Act, as
shown in any table of the report accompanying this

(b) GENERAL GUIDELINES FOR REPROGRAMMING.—

(1) A reprogramming should be made only when an unforeseen situation arises, and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage.

(2) Any project or activity, which may be deferred through reprogramming, shall not later be accomplished by means of further reprogramming, but instead, funds should again be sought for the deferred project or activity through the regular appropriations process.

(3) Except under the most urgent situations, reprogramming should not be employed to initiate new pro-
grams or increase allocations specifically denied or limited
by the Congress, or to decrease allocations specifically in-

(4) New programs requested in the budget should not
be initiated before enactment of the bill without notifica-
tion to, and the approval of, the Committees on Appro-

(B) it is a reorganization; or

(C) it is an operating plan or any later modi-
fication thereof as submitted under subsection (i) of
this section: Provided, That such plan or modifica-

the receipt by the Committees of a notice of proposed re-
programming.

(3) A reprogramming shall be considered approved 30
days after receipt if the Committees have posed no objec-

such assessment and the basis therefor are presented to

amount of the assessment, the activities assessed, and the purpose of the funds.

(2) Proposed changes to estimated assessments, as such estimates were presented in annual budget justifications, shall be submitted through the reprogramming process set out in this section and shall be subject to the same dollar and reporting criteria as any other reprogramming.
